

23.802 Policy.

It is the policy of the Federal Government that *Federal agencies*—

(a) Implement cost-effective programs to minimize the *procurement* of materials and substances that contribute to the depletion of stratospheric ozone and/or result in the use, release or emission of *high global warming potential hydrofluorocarbons*;

(b) Give preference to the *procurement* of acceptable alternative chemicals, *products*, and manufacturing processes that reduce overall risks to human health and the environment by minimizing—

(1) The depletion of ozone in the upper atmosphere; and

(2) The potential use, release, or emission of *high global warming potential hydrofluorocarbons*;

(c) Lead efforts to reduce greenhouse gas emissions at the Federal level in accordance with Executive Order 13693; and

(d) In order to better understand both direct and indirect greenhouse gas emissions that result from Federal activities, require *offerors* that are *registered in the System for Award Management (SAM)* and received \$7.5 million or more in Federal contract awards in the prior Federal fiscal year to—

(1) Represent whether they publicly disclose greenhouse gas emissions;

(2) Represent whether they publicly disclose a quantitative greenhouse gas emissions reduction goal; and

(3) Provide the website for any such disclosures.
