Federal contract information means *information*, not intended for public release, that is provided by or generated for the Government under a contract to develop or deliver a product or service to the Government, but not including *information* provided by the Government to the public (such as on public websites) or simple transactional *information*, such as necessary to process payments.

Information means any communication or representation of knowledge such as facts, data, or opinions, in any medium or form, including textual, numerical, graphic, cartographic, narrative, or audiovisual (Committee on National Security Systems Instruction (CNSSI) 4009).

Information system means a discrete set of *information* resources organized for the collection, processing, maintenance, use, sharing, dissemination, or disposition of *information* ([44 U.S.C. 3502](#)).

Safeguarding means measures or controls that are prescribed to protect *information systems*.

(b) *Safeguarding* requirements and procedures.

(1) The Contractor *shall* apply the following basic *safeguarding* requirements and procedures to protect *covered contractor information systems*. Requirements and procedures for basic *safeguarding of covered contractor information systems* *shall* include, at a minimum, the following security controls:

(i) Limit *information system* access to authorized users, processes acting on behalf of authorized users, or devices (including other *information systems*).

(ii) Limit *information system* access to the types of transactions and functions that authorized users are permitted to execute.

(iii) Verify and control/limit connections to and use of external *information systems*.

(iv) Control *information* posted or processed on publicly accessible *information systems*.

(v) Identify *information system* users, processes acting on behalf of users, or devices.

(vi) Authenticate (or verify) the identities of those users, processes, or devices, as a prerequisite to allowing access to organizational *information systems*.

(vii) Sanitize or destroy *information system* media containing *Federal Contract Information* before disposal or release for reuse.

(viii) Limit physical access to organizational *information systems*, equipment, and the respective operating environments to authorized individuals.

(ix) Escort visitors and monitor visitor activity; maintain audit logs of physical access; and control and manage physical access devices.

(x) Monitor, control, and protect organizational communications (*i.e.*, *information* transmitted or received by organizational *information systems*) at the external boundaries and key internal boundaries of the *information systems*.

(xi) Implement subnetworks for publicly accessible system *components* that are physically or logically separated from internal networks.

(xii) Identify, report, and correct *information* and *information system* flaws in a timely manner.

(xiii) Provide protection from malicious code at appropriate locations within organizational *information systems*.

(xiv) Update malicious code protection mechanisms when new releases are available.

(xv) Perform periodic scans of the *information system* and real-time scans of files from external sources as files are downloaded, opened, or executed.

(2) *Other requirements.* This clause does not relieve the Contractor of any other specific *safeguarding* requirements specified by *Federal agencies* and departments relating to *covered contractor information systems* generally or other *Federal safeguarding* requirements for controlled unclassified *information* (CUI) as established by Executive Order 13556.

(c) *Subcontracts.* The Contractor *shall* include the substance of this clause, including this paragraph (c), in subcontracts under this contract (including subcontracts for the *acquisition* of *commercial products* or *commercial services*, other than commercially available off-the-shelf items), in which the subcontractor *may* have *Federal contract information* residing in or transiting through its *information system*.
