

Subpart 5132.7 - Contract Funding

Parent topic: [Part 5132 - Contract Financing](#)

5132.702 Policy.

(a)(i) Except as authorized in FAR subparts 17.1 and 32.7 and in paragraphs (a)(ii) and (iii) in this section, before issuing a solicitation, the contracting officer must have a written statement or equivalent indicating that sufficient funds are available.

(ii) Contracting officers may issue solicitations for high priority requirements and Research, Development, Test and Evaluation incrementally funded contracts before ensuring availability of funds when there is a high probability that the requiring activity will not cancel the requirement. For foreign military sales cases, contracting officers may issue solicitations after the acceptance of a foreign military sales case, but before assurance of funds availability when the United States Army Security Assistance Command determines in writing that the offer appears certain to be accepted.

(A) The contracting officer shall not issue a solicitation under the circumstances in (a)(ii) unless the comptroller has signed the following statement on the purchase request:

“This requirement is included or provided for in the financial plan for fiscal year _____. The accounting classification will be _____. This statement is not a commitment of funds.”

(B) The contracting officer shall include the following statement in all solicitations issued pursuant to this authority when the clause at FAR 52.232-18, Availability of Funds, is not used:

“Funds are not presently available for this acquisition. No contract award will be made until appropriated funds are made available.”

(C) The operating official designated, by local regulations or by a “delegation of authority” letter, as the official authorized to certify funds availability, must certify funds available prior to contract award.

(D) The contracting officer shall not issue a research and development solicitation for a contract that is incrementally funded over successive years without sufficient planned funds (Future Years Defense Program) to cover the entire period of the multi-year performance. The head of the contracting activity may approve an exception, provided the approval identifies steps to revise the approved Future Years Defense Program to include adequate resources.

(iii) Industrial-funded public activities need not comply with (i) and (ii), when they solicit offers under the Defense Depot Maintenance Competition Program (Pub. L. 102-396), the Partnership Program (10 U.S.C. 2208(j)) or competition under the Arsenal Act (10 U.S.C.4532(a)).
