Parent topic: APPENDIX - EE DEPARTMENT OF THE ARMY GOVERNMENT PURCHASE CARD OPERATING PROCEDURES

2-1. Responsibilities and Governmental Functions

All GPC Program personnel will complete GPC-specific training prior to being appointed any GPC responsibilities. GPC personnel will keep their GPC training current to continue to hold GPC positions. Program personnel must protect the information derived from use of the GPC. All appointments must be made in JAM, an application within PIEE used by GPC participants to initiate, review, approve, maintain, and terminate GPC appointment and delegation letters. Paper copies of appointments are not required if appointments are issued using JAM. Government contractor employees will not be appointed as A/OPCs, BOs, or CHs, nor perform independent receipt of goods and services and will not be granted access to the card-issuing bank's electronic access system (EAS) or any of the business IT systems, but may be granted read-only access to the card-issuing bank's EAS upon Level 3 A/OPC approval.

2-2. Program Hierarchy Structure and Roles and Responsibilities

The GPC Program is founded on a six-tiered hierarchal reporting chain of command system identified in Figures 2-1 and 2-2. The formal names associated with specific roles within this hierarchy are often used interchangeably with the corresponding level of authority within the hierarchy. For instance, A/OPCs may be referred to as Level 4s, and the Army GPC CPM is often referred to as the Level 2. Table 2-1 describes the GPC roles in PIEE and JAM.

a. The ODASA(P) has overall responsibility for the management of the Army GPC program. The ODASA(P) appoints a CPM, also known as the Level 2 A/OPC, to manage the Army GPC program. The SCO, or in activities that do not have a SCO, the CCO or equivalent, designates, at a minimum, one Level 3 OA/OPC and an alternate Level 3 OA/OPC who, once appointed in JAM, is dedicated to the management of the GPC Program within their agency/organization. The SCO or CCO may further delegate in writing the authority to appoint the Level 3 and 4 A/OPCs in accordance with Army policy. Level 3 A/OPCs with authority to delegate procurement authority must have the corresponding appointment letter in JAM to appoint Level 4 A/OPCs. Level 4 A/OPCs may appoint CHs and billing officials in JAM if they are given the authority to delegate procurement authority and have the corresponding appointment letter in JAM. Certifying officers must be appointed by the organization's designated DD 577 appointing authority in JAM.

b. The Level 3 OA/OPC duties and responsibilities at Army major command headquarters typically warrant a grade (or equivalent thereof) of GS-14, preferably in the contracting career field. Exceptions may apply. The Level 3 A/OPC duties and responsibilities for non-headquarter commands

typically warrant a grade of GS-12 to GS-14, preferably in the contracting career field, but exceptions may apply if approved by the SCO or CCO.

c. The Level 4 A/OPC duties and responsibilities typically warrant a grade (or equivalent thereof) of GS-11 to GS-12 in any career field (e.g., 1101, 1105, or 343) if they meet the knowledge, skills, and abilities listed below. Exceptions may apply. The grade should reflect the corresponding complexity of their duties and responsibilities. The A/OPC will be designated by the appropriate contracting official to be responsible for the management, administration, and day-to-day operation of the GPC program at the activity. Written delegations are required in JAM, and each A/OPC will be granted the appropriate system access (e.g., JAM, bank EAS) associated with their role.

d. Level 3 and 4 A/OPCs must complete the training requirements detailed in Chapter 4. Only individuals who possess the following knowledge, skills, and abilities may be appointed as Level 3 and 4 A/OPCs for the GPC Program:

- 1) Understanding of the relevant GPC policies, procedures, and commercial contracting practices.
- 2) Understanding of the relevant procurement laws and regulations.

- 8) Ability to analyze, research, and provide concise recommendations to the chain of command on required actions to anticipate, prevent, or correct problems in business processes that are supported by the GPC.

e. The Government Charge Card Abuse and Prevention Act of 2012 requires all Executive Branch agencies to establish and maintain safeguards and internal controls to prevent waste, fraud, and abuse of purchase cards. Internal controls are tools to help program and financial managers achieve results and safeguard the integrity of their programs. Effective internal controls provide reasonable assurance that significant risks or weaknesses adversely impacting the agency's ability to meet its objectives are prevented, minimized, or are detected in a timely manner. The Level 3 and Level 4 A/OPC will notify the BO or CH of any action taken due to a BO's or CH's non-compliance with Army policies and procedures.

f. Level 3 and Level 4 A/OPCs have the authority to apply internal controls such as suspending or cancelling BO or CH accounts; lowering credit limits; adding or deleting Merchant Category Codes (MCC); and initiating additional controls as necessary to comply with GPC policies and procedures.

g. Results of legal reviews are not sufficient justification for CHs to proceed with a particular purchase. If a CH or BO is unsure if they can proceed with a questionable purchase, they should contact the Level 4 A/OPC for guidance and confirm authority prior to making the purchase.

h. Army agencies and organizations must provide adequate resources dedicated to the GPC program within their agency/organization to ensure successful management of the program. Adequate GPC

resources refer to an agency's efficient and effective deployment of assets (e.g., span of control, personnel, training, funding, facilities, and deployment of knowledge and skills) as needed to comply with the policies, procedures, laws, and regulations governing the GPC Program. Adequate resources must be deployed to reasonably ensure that programs achieve their intended results; resources are used consistently with agency mission; programs and resources are protected from fraud, waste, and mismanagement; laws and regulations are followed; and reliable and timely information is obtained, maintained, and reported for decision-making.

i. The local contracting office must coordinate with the local personnel office to ensure procedures are established requiring all individuals to coordinate with the Level 4 A/OPC when they out-process from the Army command or activity.

2-10. Separation of Duties

a. Separation of duties is an internal control activity intended to provide checks and balances to the GPC process and to prevent or minimize innocent errors or intentional fraud occurring without detection. This internal control ensures that no single individual has control over multiple phases of a purchase card transaction. To protect the integrity of the procurement process, no one person is responsible for an entire purchase card transaction. OMB standards for internal controls require that key duties and responsibilities be divided or segregated among individuals to ensure they do not exceed or abuse their assigned authority. See OMB Circular A-123, Appendix B Revised, paragraph 4.3. To the greatest extent possible, GPC duties will be assigned to different individuals within the GPC hierarchical structure. As stated in the DoD FMR, "separation of duties precludes errors or attempts at fraud or embezzlement from going undetected. Internal controls generally require a four-way separation of the contracting, receiving/[accepting], voucher certification, and disbursing functions."

b. Key GPC duties include making purchases and/or payments (CHs); verifying purchases and/or payments are proper (BOs, Certifying Officers, and FSOs); certifying invoices for payment (BOs, Certifying Officers, and FSOs); certifying availability of funds (Financial RMs); receiving and accepting supplies and services, including independent receipt and acceptance (acceptors); disbursing funds (Disbursing Office); and conducting policy, review, and audit functions (A/OPCs and Property Book Officers). For example:

1) BOs will not be CHs under their own MAs.

2) RMs will not be CHs or BOs with responsibility for executing their own funds.

3) Accountable Property Officers or their equivalents will not be CHs with authority to purchase accountable items (this does not apply to Property Book Hand Receipt Holders).

4) Purchases of accountable (e.g., pilferable) property, and self-generated purchases, will have acceptance performed by someone other than the CH, BO, and Certifying Officer.

5) CAC-enabled systems will generate a conflict-of-interest report to depict instances where assigned roles do not conform to DoD policy.

6) Authorization roles will be assigned to a user's profile, with each profile allowing only that individual the ability to perform specific tasks in the system.

b. If resource constraints prevent assignment of the key duties to different individuals, as set forth in paragraph a. above, the activity must request a waiver through the Level 4 A/OPC and the CCO to the Level 3 A/OPC for approval.

c. Notwithstanding the above-described waiver process, certain key duties must not be assigned to the same individual. In no case will the same individual be both the CH and BO for a GPC account. In no case will the Accountable Property Officer or A/OPC (primary or alternate) also be a CH, BO or contracting officer making contract payments with a GPC or executing GPC purchases. A CH who is a hand receipt holder should not purchase property for their own use. The servicing bank provides the functionality to generate a report identifying potential conflicts of interest in GPC program duties.

2-11. Span of Control

a. Span of control refers to the extent of oversight and review responsibilities placed on a single A/OPC, BO, or CH. An appropriate span of control must efficiently and effectively allow the A/OPC, BO, or CH to provide reasonable assurance they can effectively perform their responsibilities regardless of the number of accounts assigned. The assigned span of control must factor in the monitoring and oversight responsibilities to include the use of MasterCard's Insights on Demand (IOD) data mining and review process. To ensure GPC program participants have sufficient time to complete required reviews, GPC programs will abide by established span-of-control limits. The following span-of-control internal controls have been established for the Army GPC Program:

1) The number of CH accounts (not individual cardholders) assigned to a primary BO will not exceed seven.

2) An individual may not be assigned more than three CH accounts.

3) An A/OPC will not be responsible for more than 250 GPC accounts (card accounts and MAs combined). This ratio will be reevaluated biennially.

4) Primary A/OPC vacancies must be filled in a timely manner to prevent excessively burdening Alternate A/OPCs over an extended time.

5) The CPM has authority to approve deviation from the ratios in 1) through 3) above on a case-by-case basis provided the organization establishes sufficient local oversight and compensating controls. Deviation approval is a CPM responsibility and cannot be delegated.

6) For the ratios in 1) through 3) above, compensating controls include, at a minimum, briefing the HA on the deviation(s) and any related ramifications, during all subsequent Semi-annual Head of Activity Review (SAHAR) briefing(s) in which the deviation(s) remain in place.

7) For the ratio in item 2) above, as the SAHAR does not report on the number of CH accounts assigned to an individual, other compensating controls would need to be in place for any deviation(s) the CPM approves. Any deviations must be reported to the HA through the SAHAR process and annotated in the Notes section of the SAHAR report.

8) When Army policy authorizes use of the GPC for more complex transactions (e.g., by Ordering Officials), the Army should institute more stringent span-of-control ratios as appropriate.

b. A/OPCs should use PIEE/JAM or the card-issuing bank's EAS to provide appropriate management

notification and reports on various spans of control. All Common Access Card (CAC)-enabled systems supporting or using GPC data should utilize functions to define and manage all hierarchies assigned within the system—not just the GPC organizational hierarchy.

c. An individual may not be assigned more than one CH account for each special designation in their appointment. Assignment of roles includes effective from/to dates. This includes personnel assignment to an A/OPC, BO, or CH, as well as the relationships of the BO to the A/OPC and the CH to the BO. Management oversight reports should be defined to report personnel, position, and relationship assignments.

d. The card-issuing bank's EAS report on span of control based on user ID cannot be used as an irrefutable source to support span-of-control limits, since an individual may have more than one bank user ID. A/OPCs must track all roles an individual has been provisioned/assigned using their unique CAC public-key infrastructure or other unique identifier that may be implemented by the Under Secretary of Defense for Personnel and Readiness.

e. The Army standard for span of control for a Level 4 A/OPC is 250 BO and CH accounts per Level 4 A/OPC. This total includes both the BO and CH accounts added together. Span of control updates are deemed necessary due to changing program dynamics and increased oversight burdens placed on GPC oversight personnel over time. As the micro-purchase threshold has increased multiple times over the years, additional oversight has been required by GPC personnel as the average dollar value and the types and complexity of the GPC supplies and services being purchased has increased.

f. The total number of transactions, as well as the number of assigned card accounts, must be considered when determining an acceptable card account to BO ratio. When the number of accounts or workload complexity/administration assigned to a Level 4 A/OPC exceeds the Army standard, the SCO/CCO must ensure adequate resources are made available to allow the A/OPC to successfully perform their duties. When the span of control exceeds the Army standard and the CCO elects not to provide additional resources, the CCO must submit a waiver request in writing to the CPM for approval. The waiver request must include the rationale and justification upon which the CCO has based the determination that the existing span of control is adequate to ensure program administration and that surveillance can be performed at a satisfactory level given the existing or new compensatory controls put in place. The Level 3 A/OPC must retain a copy of this documentation.

g. The Level 4 A/OPC determines whether the BO to CH ratio is acceptable upon issuance of a GPC, during the A/OPC's annual assessment of their GPC program, or as needed. There must be a reasonable expectation that the BO can complete a thorough review of all transactions and certify the invoice within five business days of its receipt. When the ratio for CH accounts to BO exceeds the Army standard, the BO should lower the number of card accounts or request a waiver to policy. The Level 4 A/OPC will document all cases where the CH to BO ratio exceeds the Army standard. The waiver to policy request must address the unique conditions that affect the process and show, with a high degree of certainty, that the BO can be expected to comply with the review and certification procedures. The request must include the number and location of assigned CHs, the total average number of transactions made by the CHs, the amount of time the BO can devote to the certification process, the history of delinquencies, and other appropriate factors. The waiver is approved at the following levels indicated below and maintained by the approver with copies furnished to the BO:

1) 8-10 card accounts. Routed through the Level 4 A/OPC to the CCO.

2) 11-19 card accounts. Routed through the A/OPCs (Level 4 and Level 3) to the SCO.

3) 20 or more card accounts. Routed through the A/OPCs (Level 4 and Level 3) to the Level 2.
