

CC-105 ACE Contracting Risk Profile.

The primary purpose of a risk profile is to provide a thoughtful analysis of the risks an organization faces toward achieving its strategic objectives arising from its activities and operations, and to identify appropriate options for addressing significant risks. It is a prioritized inventory of the most significant risks, from a portfolio perspective, identified and assessed through the risk assessment process versus a complete inventory of risks. The ACE, as the Army body empowered and responsible for the exercise of procurement authority, maintains a risk profile for Army contracting.
