As prescribed in 245.107 Contract clauses.(4), use the following clause:

MANAGEMENT AND REPORTING OF GOVERNMENT PROPERTY (JAN 2024)

(a) *Definitions*. As used in this clause—

“As is” means that the Government makes no warranty with respect to the serviceability and/or suitability of the Government property for contract performance and that the Government will not pay for any repairs, replacement, and/or refurbishment of the property.

“Commercial and Government Entity (CAGE) code” means—

(1) An identifier assigned to entities located in the United States or its outlying areas by the Defense Logistics Agency (DLA) Commercial and Government Entity (CAGE) Branch to identify a commercial or government entity by unique location; or

(2) An identifier assigned by a member of the North Atlantic Treaty Organization (NATO) or by the NATO Support and Procurement Agency (NSPA) to entities located outside the United States and its outlying areas that the DLA Commercial and Government Entity (CAGE) Branch records and maintains in the CAGE master file. This type of code is known as a NATO CAGE (NCAGE) code.

“Contractor-acquired property,” “contractor inventory,” “Government property,” “Government-furnished property,” and “loss of Government property” have the meanings given in the Federal Acquisition Regulation (FAR) 52.245-1, Government Property, clause of this contract.

“Demilitarization” means the act of eliminating the functional capabilities and inherent military design features from DoD personal property. Methods and degree range from removal and destruction of critical features to total destruction by cutting, tearing, crushing, mangling, shredding, melting, burning, etc.

“Export-controlled items” has the meaning given in the Defense Federal Acquisition Regulation Supplement (DFARS) 252.225-7048 Export-Controlled Items., Export-Controlled Items, clause of this contract.

“Ineligible transferee” means an individual, an entity, or a country—

(1) Excluded from Federal programs by the General Services Administration as identified in the System for Award Management Exclusions located at <https://sam.gov>;

(2) Delinquent on obligations to the U.S. Government under surplus sales contracts;

(3) Designated by the Department of Defense as ineligible, debarred, or suspended from defense contracts; or

(4) Subject to denial, debarment, or other sanctions under export control laws and related laws and regulations, and orders administered by the Department of State, the Department of Commerce, the Department of Homeland Security, or the Department of the Treasury.

“Item unique identification” means a system of assigning, reporting, and marking DoD property with unique item identifiers that have machine-readable data elements to distinguish an item from all other like and unlike items.

“National stock number” means a 13-digit stock number used to identify items of supply. It consists of a four-digit Federal Supply Code and a nine-digit National Item Identification Number.

“Reparable item” means an item, typically in unserviceable condition, furnished to the contractor for maintenance, repair, modification, or overhaul.

“Scrap” means property that has no value except for its basic material content. For purposes of demilitarization, scrap is defined as recyclable waste and discarded materials derived from items that have been rendered useless beyond repair, rehabilitation, or restoration such that the item’s original identity, utility, form, fit, and function have been destroyed. Items can be classified as scrap if processed by cutting, tearing, crushing, mangling, shredding, or melting. Intact or recognizable components and parts are not “scrap.”

“Serially-managed item” means an item designated by DoD to be uniquely tracked, controlled, or managed in maintenance, repair, and/or supply systems by means of its serial number or unique item identifier.

“Serviceable or usable property” means property with potential for reutilization or sale as is or with minor repairs or alterations. “Supply condition code” means a classification of materiel in terms of readiness for issue and use or to identify action underway to change the status of materiel. “Unique item identifier (UII)” means a set of data elements marked on an item that is globally unique and unambiguous. The term includes a concatenated UII or a DoD recognized unique identification equivalent.

(2) Information regarding the GFP module is available in the GFP Module Vendor Guide at <https://dodprocurementtoolbox.com/site-pages/gfp-resources>. Users may also register for access to
