Subpart 5301.1 - PURPOSE, AUTHORITY, AND ISSUANCE

5301.101 Purpose

The Department of the Air Force Federal Acquisition Regulation Supplement (DAFFARS) establishes uniform policies and procedures for the Department of the Air Force (DAF) implementing and supplementing the Federal Acquisition Regulation (FAR), the Department of Defense FAR Supplement (DFARS), and other Department of Defense publications concerning contracting. DAFFARS Mandatory Procedures (MP) are companion resources arranged by parts, which correspond to the relevant FAR parts. Supplements to the DAFFARS and MPs are prohibited.

5301.104 Applicability

The DAFFARS applies to all DAF acquisitions as they are defined in part 2 of the FAR, except where expressly excluded.

5301.105-1 Publication and Code Arrangement

(a)(S-90) The DAFFARS is published on www.Acquisition.gov.

5301.170 Peer Reviews

(a) *DPC Peer Reviews.*

(2) To facilitate planning for and execution of DoD Peer Reviews (see [DFARS 201.170](#) for applicable competitive and noncompetitive thresholds), the SCO must use the [Peer Review and Clearance Forecasting Tool](#) to submit quarterly peer review forecasts by the 15th of March, June, September, and December each year. SAF/AQC will submit a consolidated forecast to DPC on behalf of the DAF at the end of each quarter. When DoD Peer Review is required, follow the procedures in MP5301.9001(a)(1)(i)(A)(2)(g), MP5301.9001(i)(2)(vi)(A)(1)(c), or MP5301.9001(i)(2)(vi) as appropriate, regarding clearance.

(b) Component Peer Reviews. Pre-award peer reviews of solicitations for competitive procurements and pre-award peer reviews for non-competitive procurements not subject to the requirements of [DFARS 201.170\(a\)\(1\)\(i\) or \(ii\)](#) must be accomplished by complying with the clearance requirements in [DAFFARS 5301.90](#).

Subpart 5301.2 - ADMINISTRATION

5301.201-1 The Two Councils

(d)(i) Proposed revisions to the FAR or the DFARS must be submitted through the SCO (or HCA for SSC and SDA) to [SAF/AQCP](#) in accordance with [DFARS 201.201-1\(d\)\(i\)](#).

5301.201-90 Maintenance of the DAFFARS

The DAFFARS is prepared and maintained by the Chief, Contract Policy & Field Support Division, Deputy Assistant Secretary (Contracting) (SAF/AQCP).

This page intentionally left blank.

Subpart 5301.3 - AGENCY ACQUISITION REGULATIONS

5301.301 Policy

(a)(1)(S-90) The DAFFARS is issued by the DAS(C), in coordination with the HCAs for SSC and SDA, on behalf of the Senior Procurement Executive (SPE).

5301.304 Agency Control and Compliance Procedures

(c)(4) The use of nonstandard clauses requires an approved D&F addressing the criteria outlined in DFARS PGI 201.301(b)(iii). See the [DAF Clause Control Plan](#) for approvals, including those requiring OUSD(A&S)/DPC approval. See the tailorable [Non-Standard Clause Control Template](#). Prior to using a reopener clause, the contracting officer must document the D&F that its use is the most appropriate means of overcoming a contingency that could affect contract price and obtain approval from the SCO. The SCO must submit a copy of the approval to [SAF/AQCP](#).

This page intentionally left blank.

Subpart 5301.4 - DEVIATIONS FROM THE FAR

5301.402 Policy

(2) Submit requests for deviations requiring OUSD(A&S)/DPC approval through the SCO to the [cognizant HCA workflow](#) for processing. See the tailorable [Deviation Request](#) template.

5301.403 Individual Deviations

(1)(i) SCOs are authorized to approve individual deviations except as described in (ii) below or as described in [DFARS 201.402\(1\)](#) and [DFARS 201.403\(2\)](#).

(ii) The cognizant HCA is the approval authority for individual deviations from [FAR 15.3](#), [DAFFARS 5315.3](#), and [MP5315.3](#). This approval authority is not further delegable. See the [Deviation Request](#) template. Deviation requests must be submitted through the SCO to the [cognizant HCA workflow](#) for approval. When a proposed deviation, as described herein, also requires a waiver from [DFARS 215.3](#), *DoD Source Selection Procedures*, the waiver process in [MP5315.3](#), para 1.2.4., must also be followed.

5301.404 Class Deviations

(b)(i) USD(A&S)/DPC is the approval authority for any class deviation described in [DFARS 201.402\(1\)](#), class deviations from [DFARS 215.3](#), and class deviations that meet the criteria in [DFARS 201.404\(b\)\(ii\)\(A-D\)](#). Submit requests through the SCO to the [cognizant HCA workflow](#) for processing to USD(A&S)/DPC for approval.

(ii) The cognizant HCA is the approval authority for class deviations from [FAR 15.3](#), [DAFFARS 5315.3](#), and [MP5315.3](#). See the [Deviation Request](#) template. Requests must be submitted through the SCO to the [cognizant HCA workflow](#) for approval.

Subpart 5301.6 - CAREER DEVELOPMENT, CONTRACTING AUTHORITY, AND RESPONSIBILITIES

5301.601 General

(a)(i) See [MP5301.601\(a\)\(i\)](#) for the DAF Approval Authority Matrix.

5301.601-91 Department of the Air Force Contracting Self-Inspection Program

(a) The DAF Self-Inspection program assesses compliance with federal laws, regulatory policies, DoD and AF directives, and instructions across the enterprise. It is also used to verify adequacy of contract preparation.

(b) SCOs will manage a self-inspection program, which includes both the assessment of individual contract files and the assessment of contracting management programs contained in the Contracting Self-Assessment Communicator (SAC) as required by [DAFI 90-302](#), The Inspection System of the Department of the Air Force. As a minimum, contracting offices must perform self-inspections of individual contract files on an annual basis.

(c) For self-inspection of individual contract files reviewed after award, SCOs may use the [Air Force Contracting Self-Inspection Checklist](#); a comparable organizational checklist for post award reviews; or any combination thereof.

(d) SCOs will ensure corrective actions are implemented as a result of any self-inspection. Contracting offices must have a documented program for self-inspection, to include a process for closing resolved findings in a timely manner, ensuring an effective level of review necessary to close a finding, and integrating findings and resolutions into unit training.

(e) SCOs must forward a consolidated trend analysis report for the previous calendar year to [SAF/AQCP](#) by 28 February of each year. See the tailorable [Consolidated Trend Analysis Report](#) template.

5301.602-1 Authority

(a) Contracting officers are authorized to enter into and execute contracts funded either partially or completely with non-appropriated funds.

5301.602-2 Responsibilities

(c)(i) Legal Review

(A) Contracting officers must obtain legal advice during all phases of acquisitions. See the tailorable [Legal Review](#) template. In particular, contracting officers must obtain legal advice, coordination, and review from the supporting legal office for the following situations regardless of dollar amount, and if required elsewhere in the DAFFARS, or by law, regulation, or policy:

(1) When there is doubt or controversy about the interpretation or application of statutes, directives, and regulations;

(2) When using or applying unique or unusual contract provisions;

(3) When actions are likely to be subject to public scrutiny or receive higher-level agency attention;

(4) Procurement integrity or organizational conflict of interest issues;

(5) Source selection decisions and supporting documentation for actions accomplished pursuant to the requirements of [MP5315.3](#);

(6) Issues dealing with licensing, technical data rights, and patents;

(7) Ratifications

(8) Termination for default/cause

(9) Terminations for convenience, except cancellations or terminations of purchase orders;

(10) Individual or class deviations; and

(11) Any other legal issue at the discretion of the contracting officer or supporting legal office.

(B) All Justifications and Approvals (J&A) requests for actions expected to exceed \$750,000

(C) In addition to the general conditions identified in [DAFFARS 5301.602-2\(c\)\(i\)\(A\)](#) above, contracting officers shall exercise good judgement in seeking legal review if the total value of the contract action is less than the thresholds listed in this paragraph and guard against using reviews as a means of quality control. Contracting officers must obtain legal review of Operational contract actions expected to exceed \$1,000,000 and Non-Operational contract actions expected to exceed \$5,000,000, as follows:

(1) Solicitations and amendments, except administrative amendments;

(2) Proposed contracts and modifications;

(3) Orders for supplies or services issued under indefinite delivery type contracts ([FAR 16.5](#)), including GWACs, and Federal Supply Schedules (FSS), that require negotiation at the order level; and

(4) Orders under Blanket Purchase Agreements (BPA) established under FSS.

(D) Legal review is not normally required for:

(1) Funding actions without any other changes;

(2) Unilateral exercise of pre-priced options that were reviewed and approved at the time of award of the basic contract; or

(3) Except as indicated at [DAFFARS 5301.602-2\(c\)\(i\)\(C\)\(3\)](#), order solicitations and orders issued against existing contracts in accordance with all terms and conditions of the basic contract.

(d) For Designation, Assignment, and Responsibilities of a Contracting Officer's Representative, see [MP5301.602-2\(d\)](#).

5301.602-3 Ratification of Unauthorized Commitments

(b) *Policy.*

(2) See [MP5301.601\(a\)\(i\)](#). Submit a copy of the approval to the [SAF/AQC Workflow](#).

5301.603-1 General

The HCA designees delegated contracting authority in accordance with [MP5301.601\(a\)\(i\)](#) must select and appoint contracting officers and terminate their appointments in accordance with this section and [MP5301.603-90](#).

(a) The SCO may delegate this authority to the highest contracting official in the contracting chain at geographically separated organizations, but in no event will the designee be lower than a GS-15 (or equivalent) or O-6. AFICC/CC SCO may delegate authority to select and appoint contracting officers (and terminate their appointments in accordance with [DAFFARS 5301.603-1](#) and [MP5301.603-90](#)) to the AFICC/KO Director of Contracting.

(b) Authority to issue limited contracting officer warrants of less than \$5M and authority to terminate appointments of less than \$5M may be delegated, but in no event will the designee be lower than the COCO.

(ii) Issuing authorities will terminate FOO appointments in writing. Issuing authorities will not revoke an ordering officer appointment retroactively.

(d) Procedures. Issuing authorities will –

(1) Appoint FOOs by a letter of appointment containing at a minimum the details prescribed at 5301.603-3(b)(1) and listing the purpose(s) for appointment (5301.603-3-90(b)), using a template substantially the same as the ones provided in the [AFICC FOO Guidance](#), tailored to fit the circumstances of the appointment;

- (1) For competitive acquisitions, approval to issue the solicitation.
 - (2) For noncompetitive contract actions, approval to begin negotiations.
 - (3) For Broad Agency Announcements (BAA), if the total value of awards under a BAA is anticipated to be greater than or equal the clearance threshold, approval to begin negotiations.
 - (4) For Architect-Engineer Services under [FAR 36.6](#), approval to begin negotiations.
- (d) “Begin negotiations” means, for the purpose of noncompetitive contract actions, starting discussions with an offeror for the purpose of reaching agreement on all aspects of the proposal.  - (2) For competitive acquisitions with discussions –
 - (i) Approval by the CAA for the SSA to request final proposal revisions in accordance with [FAR 15.307](#); and

The CR identifies deficiencies, assists in resolution, and advises the CAA as appropriate. When the CR is not from the designated CR office and is selected by the CAA, the CR must be an experienced contracting professional, a Government employee, and must not review their own contract action.

(g) “Clearance Approval Authority (CAA)” means the individual identified at 5301.9001(i)(1) and (2), unless otherwise directed.

(h) “Clearance Review” means the independent review performed by the designated CR office or as otherwise selected by the CAA.

5301.9001 Policy, Thresholds, and Approvals

(a) The objectives of the business and contract clearance process are to ensure that:

- (1) Contract actions effectively implement approved acquisition strategies;
- (2) Negotiations and contract actions result in fair and reasonable business arrangements;
- (3) Negotiations and contract actions are consistent with laws, regulations, and policies; and
- (4) An independent review and assessment by the clearance authority for the proposed contract action is accomplished.

(b) The CAA must ensure that the clearance process meets the objectives in paragraph (a) above.

(c) The CAA must seek legal advice (see [DAFFARS 5301.602-2\(c\)\(i\)](#)) and ensure that counsel has coordinated on any clearance briefings or presentations, and that counsel’s comments are included in the briefing or presentation.

(d) Only one clearance review may be performed prior to the contract action being presented to the CAA. The CR is responsible for the clearance review. The CAA may select an alternate CR who meets the requirements identified in paragraph [DAFFARS 5301.9000\(f\)](#). The CAA, in conjunction with the SCO, has the authority to waive the clearance review.

(e) At the discretion of the CAA, contract clearance is not required when the negotiation team stays within the pre-set negotiation range and the parameters approved at the business clearance.

(f) If a CAA requires clearance for competitive order solicitations or orders when excluded in accordance with [DAFFARS 5301.9000\(b\)\(6\)](#), the SCO must submit a written justification to [cognizant HCA](#) upon execution.

(g) The Source Selection Authority (SSA) must not be the CAA

(h) The Milestone Decision Authority, PEO, or lead program manager must coordinate and/or participate in business clearance briefings.

(i) Contract actions meeting the contract value thresholds established below must not be awarded without obtaining business and contract clearance approval from the CAA (See associated [clearance templates](#)). Contract value is determined by the definition in [FAR 1.108\(c\)](#).

(1) Clearance Approval (See (2) below for SSC clearance approvals):

Unit	Clearance Approval Authority	Clearance Approval Authority	Clearance Approval Authority \geq \$1B
Operational	COCO \leq \$10M	SCO > \$10M to < \$1B	HCA
Enterprise	COCO \leq \$50M	SCO > \$50M to < \$1B	HCA
PEO (Systems)	COCO \leq \$100M	SCO > \$100M to < \$1B	HCA

Table 1

(i) The cognizant HCA is the business clearance approval authority for all contract actions \geq \$1B; and any other contract action identified as special interest by the cognizant HCA regardless of dollar amount. The HCA may delegate clearance authority on a case-by-case basis. The procedures in [MP5301.9001\(i\)\(1\)\(i\)](#) must be followed for clearance when SAF/AQC (DAS(C) or ADAS(C)) is the clearance approval authority. SCOs retain contract clearance approval authority.

(ii) The CAA is the approval authority for all contract actions as delegated in TABLE 1. The Table 1 thresholds represent the minimum delegation that must be made. SCOs may increase the specified dollar thresholds at their discretion.

(iii) If a SCO reduces the thresholds or withholds the clearance approval authority from the designees in TABLE 1, the SCO must notify the [cognizant HCA](#). If the SCO reduces or withholds clearance approval authority for more than six months, the SCO must brief the cognizant HCA regarding the circumstances surrounding the decision. regarding the circumstances surrounding the decision.

(iv) To facilitate planning for clearances that require SAF/AQC approval, SCOs must use the [Peer Review and Clearance Forecasting Tool](#) to project upcoming SAF/AQC clearances.

(v) For PEO and Enterprise contracting, business and contract clearance are required for actions greater than or equal to \$5M.

(vi) For Operational contracting, business and contract clearance are required for actions greater than or equal to \$3M.

(vii) SCOs are responsible for ensuring all further delegations of clearance approval authorities are included on the [SCO Delegation Letters/Thresholds](#) SharePoint page.

(viii) When a contracting official is the Source Selection Authority (SSA) for a particular acquisition, the CAA must be a level above the contracting official. If the SCO or their deputy is the SSA, the CAA for that acquisition must be the cognizant HCA.

(2) Clearance when the HCA is SSC/PK Director, SDA Director, or SpRCO Director of Contracting.

(i) The SCO is the CAA for Non-Operational actions valued at greater than or equal to \$1B and for Operational actions valued at greater than or equal to \$10M. The HCA or SCO may designate an action as Special Interest regardless of dollar value and assign the CAA notwithstanding further delegations below.

(ii) The COCO is the CAA for Non-Operational actions valued at less than \$1B, and for Operational actions valued at less than \$10M.

(iii) The COCO may further delegate CAA within their portfolio on either a class or individual basis without restriction. The COCO may also set a threshold at which the contracting officer is not required to seek clearance approval.

(iv) The COCO shall report clearance delegations made on a class basis to the [cognizant HCA Workflow](#). SSC COCO class delegations can be found here. Individual delegations must be documented in the contract file.

(v) The CAA shall, in all cases, be distinct from the contracting officer responsible for executing the proposed action.

(vi) When the HCA is SSC/PK Director, follow the procedures at MP5301.9001(i)(2)(vi) when conducting clearance.

Subpart 5301.91 - OMBUDSMAN PROGRAM

5301.9101 Purpose

The purpose of the DAF ombudsman program is to foster communication between Government and industry. The primary function of the ombudsman is to hear concerns about specific issues in acquisitions, to communicate these concerns to senior management personnel responsible for oversight and to assist in the resolution of the concerns. In accordance with 5301.9102(f) below, employees, managers and customers may use the DAF component ombudsman when seeking assistance in resolving procurement integrity issues.

5301.9102 Policy

(a) MAJCOM/DRU/DAFRCO/ Commanders must appoint an experienced senior official who is independent of the contracting officer and program manager as the ombudsman at their organization. For AFMC Centers, an ombudsman is required at each Center, instead of at the MAJCOM. Centers may also have an ombudsman at each Operating Location/ Geographically Separated Unit. At FLDCOMs and SDA, the HCA is responsible for the appointment instead of the Commander.

(b) The ombudsman will have the authority to call upon other resources of the activity to assist in resolving acquisition issues or concerns (e.g., administrative support, independent review teams).

(c) Contracting officers must identify the ombudsman in the initial announcement of the acquisition as well as in the draft and final RFP.

(d) The ombudsman must:

- (1) Support acquisition personnel in the resolution of issues or concerns raised by interested parties;
- (2) Act in a manner that does not compromise the interested party and, if requested, maintain anonymity of the parties;
- (3) Avoid any appearance of usurping normal procurement authority (e.g., program manager, contracting officer, and source selection authority);
- (4) Ensure all affected or knowledgeable offices and officials are consulted as part of any resolution process;
- (5) Inform the Commander/Director, or PEO, as required, of issues raised and actions taken;
- (6) Review complaints relative to multiple-award task order and delivery order contracts awarded under [10 U.S.C. 3403\(d\)\(1\)\(B\)](#) or [3405\(f\)](#) to ensure that all contractors are afforded a fair opportunity to be considered for task orders and delivery orders in excess of the micro-purchase threshold, consistent with the procedures in the contract;
- (7) Consistent with security requirements, have access to the appropriate offices and be allowed to collect all facts relevant to the resolution of issues raised by interested parties. Ombudsmen are granted access to proprietary information. Source selection information must be obtained through the source selection authority.

(e) The Ombudsman Program does not replace the agency level protest, GAO bid protest or disputes processes.

(f) The DAF ombudsman is the ADAS(C), who may take action to assist in resolving issues, concerns, disagreements, and recommendations that cannot be resolved at the MAJCOM/FLDCOM/DRU level, or for those having DAF wide implications. The ADAS(C) is the DAF ombudsman for procurement integrity issues (see [OUSD\(AT&L\)/DPAP memo, 1 Oct 09](#)).

(g) Government personnel may use the Ombudsman Program as a way to express concerns about an acquisition.

Subpart 5303.1 - SAFEGUARDS

5303.104-2 General

(a) See [MP5301.601\(a\)\(i\)](#) when supplementing specific definitions to identify individuals who occupy positions specified in FAR [3.104-3\(d\)\(1\)\(ii\)](#), and any clauses required by 3.104.

(b)(6) Former federal employees have a continuing obligation to the Government not to disclose or misuse any other information acquired as part of their official duties and which is not generally available to the public.

5303.104-3 Statutory and Related Prohibitions, Restrictions, and Requirements

(a) Similar to knowledge of classified information, employee protective obligations of Government acquisition information extend beyond federal service and further support potential determinations of personal and organizational conflicts of interest, as well as potential determinations to eliminate contractors from competing on certain acquisitions due to conflicts of interest.

(c)(1)(ii) See [MP5301.601\(a\)\(i\)](#) for individuals authorized to approve resumption of participation in a procurement.

5303.104-4 (a) Disclosure, Protection, and Marking of Contractor Bid or Proposal Information and Source Selection Information

Any individuals requiring access to Source Selection Information (SSI) as a result of participating on a source selection or in the performance of their duties must sign a [Source Selection Non-Disclosure Agreement](#). The Source Selection Non-Disclosure Agreement may be used on an annual basis for individuals who must have access to SSI in the performance of their official duties throughout the year, whether or not they participate as part of the actual source selection team.

5303.104-5 Disqualification

(a) Contracting officers should consider ways to engage potential offerors early and respond to industry queries, pursuant to the contracting officer's responsibilities under FAR 9.504, to determine whether former federal employees should be excluded from proposal preparation. When Contracting officers become aware that a former federal employee is involved in a contractor's proposal preparation, the CO shall determine whether that employee should be excluded from the proposal preparation effort. The CO shall document the supporting rationale within the determination as to whether the former federal employee should be excluded from the proposal preparation efforts or not. In addition to the ethics advisory opinions under [FAR 3.104-6](#), should a former federal employee participate in preparing a competitive proposal on behalf of an employer or client, and it relates to the prior employment as a federal employee, the individual should inform his/her employer/client of this fact and have that entity communicate such facts to the Contracting Officer in accordance with [FAR 3.104](#) and [FAR 9.505](#). One of the guiding principles established by the decisions of the courts is the obligation of contracting agencies to avoid even the appearance of impropriety in government procurements. See [FAR 3.101-1](#). In this regard, where a firm may have gained an unfair competitive advantage through its hiring of a former government official, the contracting officer may disqualify a firm from a competition based on the appearance of impropriety tied to an organizational conflict of interest which is created by this situation, that is, even if no actual impropriety can be shown.

(b) In addition to the cognizant parties identified at [FAR 3.104-5\(b\)](#), if the source selection authority is the DAFRCO/MAJCOM/FLDCOM/FOA/DRU/CC or CD, the disqualification notice must be coordinated through the DAFRCO/MAJCOM/FLDCOM/FOA/DRU JA and the SCO. The notice must include the items at [FAR 3.104-5\(b\)](#) and the following:

- (1) Name of requestor
 - (2) Current position/job title
 - (3) Projected retirement date
 - (4) Impact on program/unit mission if disqualification is granted
 - (5) Proposed replacement individual for official acquisition duties
 - (6) Commander/Director recommendation
- (c) Resumption of participation in a procurement

The contracting officer, after consultation with the parties identified in paragraph (b), will notify the individual if he or she is disqualified. The individual will remain disqualified unless resumption of participation in the procurement is granted in accordance with this paragraph.

(2) See [MP5301.601\(a\)\(i\)](#). In cases where the SCO is the individual disqualified from participation in a procurement, the cognizant HCA must authorize the individual to resume participation in the procurement. SAF/AQ and SAF/SQ and

their civilian or military deputies have the authority to permit the cognizant HCA to resume participation in a procurement following contact with an offeror regarding non-Federal employment.

5303.104-7 Violations or possible violations

(a) The contracting officer must provide a copy of the information and documentation generated under [FAR 3.104-7](#) to their [cognizant HCA](#), cognizant legal counsel, to [SAF/AQC](#) and to [SAF/GCR](#).

(1) The contracting officer must forward the information and determination required by [FAR 3.104-7\(a\)\(1\)](#) to the clearance approval authority ([DAFFARS 5301.9001\(i\)](#)) of the affected procurement for review.

(f) See [MP5301.601\(a\)\(i\)](#) for individuals who may authorize award.

5303.104-9 Contract Clauses

(b) If information received under [FAR 52.203-10](#), *Price or Fee Adjustment for Illegal or Improper Activity*, indicates that a price or fee adjustment may be appropriate, the contracting officer must submit notification to the SCO, [cognizant HCA](#) and to [SAF/GCR](#).

Subpart 5303.2 - CONTRACTOR GRATUITIES TO GOVERNMENT PERSONNEL

5303.202 Contract Clause

See [MP5301.601\(a\)\(i\)](#) for the designee identified in [FAR Clause 52.203-3](#).

5303.204 Treatment of Violations

(a) SAF/GCR is authorized to conduct hearings and make findings of fact in accordance with [FAR 3.204\(a\)](#). If a hearing is held, SAF/GCR will provide recommendations to ASAF(A) or the Principal Civilian or Military Deputy.

5303.570-2 Prohibition Period

- (a) See [MP5301.601\(a\)\(i\)](#).

Subpart 5303.6 - CONTRACTS WITH GOVERNMENT EMPLOYEES OR ORGANIZATIONS OWNED OR CONTROLLED BY THEM

5303.602 Exceptions

See [MP5301.601\(a\)\(i\)](#) The SCO should review each contract action to ensure no viable alternatives exist and that every effort is made to avoid any conflict of interest between the employees' interests and their government duties. Requests must address the following:

- (1) Description of requirement;
- (2) Amount of the proposed contract and period of performance or delivery date;
- (3) Contracting officer's basis for determining the price fair and reasonable;
- (4) Apparent contract awardee -- Government employee's name, grade/rank, duty/position title, and organization;
- (5) Determination that there is no conflict of interest;
- (6) Explanation of the compelling reason why the Government's needs cannot otherwise reasonably be met (include description of efforts to obtain services from non-government personnel); and

(a) The contracting officer must forward the facts concerning a final conviction, to include a copy of the conviction, to [SAF/GCR](#) within 30 days after learning of the conviction. Contracting officers also must consider how the disclosed information may impact pending contract actions in terms of the contractor's present responsibility and/or the contractor's past performance. The contracting officer must promptly provide a copy of any disclosure or notification received to the SCO and to [SAF/GCR](#) using the procedures at [DAFFARS 5309.406-3](#).

(b)(2)(ii) The Government must safeguard and treat the information obtained pursuant to a contractor's disclosure or notification as confidential where the information has been marked as "confidential" or "proprietary" by the company. Contracting offices using KT Fileshare (KTFS) shall use it as both the working and official file, per [FAR 4.802\(c\)\(3\)](#). It shall be used to create, modify, store, access, and route documents necessary to manage the acquisition process for review and approval, over the life of the entire acquisition lifecycle, (e.g. requirements development to contract closeout.) Contracting Officers shall ensure that KTFS contains all appropriate contract documents required for the official contract file. 5315.405 Price Negotiation

(d) In situations where a contractor inadequately supports the proposed price as fair and reasonable despite all attempts by the contracting officer to secure adequate justification through negotiations, these situations should be elevated and documented as described herein. When the contractor insists on a cost/price or demands a profit or fee that the contracting officer considers unreasonable, the contracting officer shall notify the authority one level above the contracting officer and using the instructions in the link immediately submit an [Egregious Pricing Incident Report](#) to [SAF/AQC](#), and the cognizant HCA Workflow (if HCA is other than DAS(C) or ADAS(C)). (1) If the Egregious Pricing situation is not resolved through negotiations, the offeror is ineligible for award unless the cognizant HCA determines, in writing, that it is in the best interest of the Government to make award to that offeror, based on consideration of the following:

- (i) The program or mission partner need for the item(s) or service(s) in terms of the specific mission contribution;
- (ii) The challenges to reaching and efforts made to reach a fair and reasonable cost/price; and
- (iii) Increased cost or harm to the Government if award is not made.

(2) The PEO or Wing Commander (or other corresponding authority) and SCO shall certify to the cognizant HCA that the conditions listed in (d)(1) exist and award should be made. [DAFFARS 5301.7](#) provides instructions for the submission of the Determination and Findings (D&F).

5315.406-1 Prenegotiation Objectives

(b)(ii) *Adjudication Procedures*. The contracting officer must forward DCAA requests for Air Force management review through their management chain and provide the SCO name and contact information to the cognizant DCAA representative. If disagreements remain, the SCO must elevate the issue to the [cognizant HCA](#) to support any request from DCAA for further elevation of the issue(s).

(b)(90) A Preliminary Price Negotiation Memorandum (PPNM) is required for all actions of \$10M or more. The [AF PPNM template](#) may be tailored for use.

5315.406-3 Documenting the Negotiation

(a) See the [Price Negotiation Memorandum \(PNM\) Checklist](#) that may be used to ensure PNMs contain all required information. For contract actions valued below the [Truthful Cost or Pricing Data threshold](#), the AF Streamlined PNM Format for [supplies](#) or [services](#) is available for use. If the value of the contract action exceeds the Truthful Cost or Pricing Data threshold and no exception to the Truthful Cost or Pricing Data threshold applies, pricing documentation is expected to address the cost element composition of the proposed, objective, and negotiated positions at an appropriate level of detail based on the value and complexity of the pricing action. The [final PNM template](#) and streamlined PNM templates for [supplies](#) or [services](#) may be tailored for use.

(c) The acquisition team must use ADR to the maximum extent practicable (See AFPD 51-12, *Negotiation and Dispute Resolution*). ADR must also be used to resolve protests to the maximum extent practicable. The acquisition team must attempt to use ADR prior to the commencement of litigation once unassisted negotiations have reached an impasse. Further, ADR must be offered in litigation, unless one of the exceptions in [5 U.S.C. 572\(b\)](#) applies or the policy set forth by Deputy General Counsel (Contractor Responsibility & Conflict Resolution ([SAF/GCR](#))) indicates that ADR is not appropriate.

5333.215 Contract Clause

(3) See [MP5301.601\(a\)\(i\)](#).

5333.290 Claims and Terminations for Default

(a) If a contractor submits an uncertified claim exceeding \$100,000, the contracting officer must notify the contractor, in writing, of its failure to certify as required by the Contract Disputes statute ([41 U.S.C. §§ 7101-7109](#)). The notice must state that a final decision will not be issued until the claim is certified.

(b) Prior to making a final decision on a claim or termination for default (including a termination for cause under FAR Part 12), the contracting officer must refer the proposed final decision to the cognizant legal office for legal advice, ADR suitability, and appropriate dispute resolution strategies. The contracting officer, with the assistance of the cognizant legal office, must seek review by [AF/JACQ](#) of all proposed final decisions. At the same time, the contracting officer must provide [SAF/GCR](#) with any proposed final decision on a claim involving PEO programs and any proposed final decision on a claim greater than \$500,000. The contracting officer or the referring person must promptly notify [SAF/GCR](#) and their SCO with all known information relating to any recommended termination for default.

(c) The contracting officer must use ADR to the maximum extent practicable to resolve an Air Force affirmative contract claim (such as defective pricing, liquidated damages, etc.) when unassisted negotiations reach an impasse as determined by the SCO. The contracting officer must provide to [AF/JACQ](#), with a copy to [SAF/GCR](#), any audit or other findings indicating Air Force entitlement to recovery greater than \$500,000 where unassisted negotiations have reached an impasse, in order to develop a dispute resolution strategy. Government claims must be formally asserted [issuance of a Contracting Officer's Final Decision ([FAR 33.206](#))] within 6 years after the accrual of the claim.

5333.291 Appeals to the Armed Services Board of Contract Appeals (ASBCA)

(a) AF/JACQ represents the Department of the Air Force in appeals to the ASBCA.

(b) If the contractor files an appeal with the ASBCA, the contracting officer must notify the SCO and forward to [AF/JACQ](#) and the cognizant legal office a copy of any notice of appeal to the ASBCA, along with the envelope in which the notice was received. If the contractor files an appeal with the contracting officer instead of the ASBCA, the contracting officer must immediately notify [AF/JACQ](#) of the date the appeal was received and forward to [AF/JACQ](#) and the cognizant legal office a copy of the appeal and a copy of the envelope in which the appeal was received. The contracting officer must forward the original appeal and envelope to [AF/JACQ](#), which will then forward the appeal and envelope to the ASBCA, as necessary.

(c) The contracting officer must prepare a "Rule 4 file" for any appeal to the ASBCA in accordance with Rule 4 of the ASBCA rules (see [DFARS Appendix A, Part 2](#)). The contracting officer must consult with [AF/JACQ](#) before including in the Rule 4 file any legal opinions or intra-governmental or inter-governmental documents as described in [DoD Directive 5400.07](#), *DoD Freedom of Information Act Program*, and [FAR 24.2](#).

(d) While an appeal is pending, the contracting officer along with the program manager/user/functional Commander and SJA will support the assigned trial attorney as required including; identifying and locating government witnesses, gathering contractual documents and other physical evidence for conferences and hearings necessary to defend or otherwise dispose of an appeal.

(e) Once the Rule 4 file is complete, [AF/JACQ](#) will file it with the ASBCA on behalf of the contracting officer.

5333.292 Appeals to the United States Court of Federal Claims (COFC)

(a) The Department of Justice represents the Department of the Air Force in appeals brought before the COFC. The Air Force Commercial Litigation Field Support Center ([AF/JACQ](#)) serves as the Department of the Air Force counsel with the Department of Justice in such appeals.

(b) The contracting officer must notify the cognizant legal office and the SCO of any notice of appeal to the COFC. The cognizant legal office must forward a copy of the notice to [SAF/GCR](#) and [AF/JACQ](#).

(c) The contracting officer must assist the cognizant legal office in preparing the litigation report. The contracting officer must obtain approval from the [AF/JACQ](#) trial attorney prior to releasing the litigation report outside government.

Subpart 5337.1 – SERVICE CONTRACTS (GENERAL)

5337.102-70 Prohibition on Contracting for Firefighting or Security-Guard Functions

(a)(S-90) For purposes of complying with 10 U.S.C. 2465, which prohibits the DoD from “entering into a contract for the performance of firefighting or security-guard functions at any military installation or facility,” the term security guard functions should be understood to mean those functions which are the responsibility of an installation commander or stand-alone military facility commander. If there is no military commander, this prohibition shall apply to the senior DoD civilian at the location. The prohibited security guard functions include: performing or supervising protective services work that involves the protection of federally owned or leased buildings and property at the installation level or at a stand-alone military facility; protecting government equipment and material at the installation level or at a stand-alone military facility; controlling access to federal installations by employees, visitors, residents and patients; and monitoring of intrusion detection systems. The statutory prohibition on contracting for security guard functions in 10 U.S.C. 2465 does not apply to security support functions that a unit or organization performs as part of security in depth at a location or area on an installation, or performs within a stand-alone building, so long as the commander and their unit is not responsible for installation-level security or overall security at a stand-alone military facility. Contractors performing security support functions may not engage in any law enforcement functions, i.e., criminal investigative work, the preservation of peace; the prevention, detection and investigation of crimes; the arrest or apprehension of violators; and the provision of assistance to citizens in emergency situations, including the protection of civil rights, preservation of crime scenes; issuances of citations; and arrests and apprehensions of suspects.

(b) See the tailorable [Determination and Findings](#) template.

(i) For “Operational and Enterprise Contracting,” the installation commander is authorized to approve the D&F at [DFARS 237.104\(b\)\(i\)](#). For PEO programs and acquisitions, the PEO is authorized to approve this D&F.

(iii)(A)(2) See [MP5301.601\(a\)\(i\)](#).

5337.170-2 Approval Requirements

(a)(1) The Services Designated Official (SDO) (see [DAFI 63-138](#), *Acquisition of Services*) will approve acquisitions of services to be purchased through a contract or task order above the SAT that is not performance based.

(i) If more than 50 percent of the requirement (contract or task order), measured in dollars, is performance-based, the requirement can be considered a performance-based service acquisition.

(ii) Purchase requests for services acquisitions that are not performance based will include the following statement: “IAW [10 USC 4501](#) the Services Designated Official (SDO) has approved the attached Performance Work Statement and Quality Assurance Surveillance Plan ensuring requirements are performance based to the maximum extent practicable.”

Subpart 5343.1 – GENERAL**5343.102 Policy**

If the contract is a space program contract to which SSCI 64-101 applies, contracting officers shall not execute contract modifications resulting from an engineering change proposal with a contractor listed on the Contractor Responsibility Watch List (CRWL) without obtaining SSC/CC approval (see DAFFARS 5309.103(b)(i)).

5343.102-90 Contract Scope Considerations

Contracting officers shall document scope determination when modifying contracts (see the Scope Determination – MFR template). New work requires competition unless one of the seven exceptions to competition found in FAR [6.302](#) applies. When determining whether proposed modifications constitute new work the following should be considered-

- (a) the extent of any changes in the type of work, performance period, and costs between the modification and the original contract;
- (b) whether the original solicitation adequately advised offerors of the potential for the change or the change was the type that reasonably could have been anticipated; and
- (c) whether the modification materially changes the field of competition for the requirement.

For unilateral modifications authorized by clauses other than the Changes clause (e.g., Property clause, Options clause, Suspension of Work, etc. (see FAR [43.103\(b\)\(3\)](#)), a scope determination is not required to be documented but is highly encouraged.

5343.204-70-5 Exceptions

(c) See [MP5301.601\(a\)\(i\)](#).

5343.204-70-7 Plans and Reports

To comply with the Consolidated UCA Management Plan and Semi-annual Consolidated UCA Management Report requirements described in [DFARS 243.204-70-7](#), SCOs are required to ensure unpriced change orders with an estimated value exceeding \$5 million are input/updated in the [UCA Reporting tool](#) on a semi-annual basis no later than April 10th and October 10th of each year. OMBUDSMAN (JUL 2023)

(a) An ombudsman has been appointed to hear and facilitate the resolution of concerns from offerors, potential offerors, and others for this acquisition. When requested, the ombudsman will maintain strict confidentiality as to the source of the concern. The existence of the ombudsman does not affect the authority of the program manager, contracting officer, or source selection official. Further, the ombudsman does not participate in the evaluation of proposals, the source selection process, or the adjudication of protests or formal contract disputes. 5352.209-9000 Organizational Conflict of Interest

As prescribed in [DAFFARS 5309.507-2\(a\)](#), insert the following clause, substantially as written, in Section I:

ORGANIZATIONAL CONFLICT OF INTEREST (JUL 2023)

(a) The following restrictions and definitions apply to prevent conflicting roles which may bias the Contractor's judgment or objectivity, or to preclude the Contractor from obtaining an unfair competitive advantage in concurrent or future acquisitions.

(1) Descriptions or definitions:

"Contractor" means the business entity receiving the award of this contract, its parents, affiliates, divisions and subsidiaries.

"Development" means all efforts towards solution of broadly-defined problems. This may encompass research, evaluating technical feasibility, proof of design and test, or engineering of programs not yet approved for acquisition or operation.

"Proprietary Information" means all information designated as proprietary in accordance with law and regulation, and held in confidence or disclosed under restriction to prevent uncontrolled distribution. Examples include limited or restricted data, trade secrets, sensitive financial information, and computer software; and may appear in cost and pricing data or involve classified information.

"System" means the system that is the subject of this contract.

"System Life" means all phases of the system's development, production, or support.

"Systems Engineering" means preparing specifications, identifying and resolving interface problems, developing test requirements, evaluating test data, and supervising design.

"Technical Direction" means developing work statements, determining parameters, directing other Contractors' operations, or resolving technical controversies.

(2) Restrictions: The Contractor shall perform systems engineering and/or technical direction, but will not have overall contractual responsibility for the system's development, integration, assembly and checkout, or production. The parties recognize that the Contractor shall occupy a highly influential and responsible position in determining the system's basic concepts and supervising their execution by other Contractors. The Contractor's judgment and recommendations must be objective, impartial, and independent. To avoid the prospect of the Contractor's judgment or recommendations being influenced by its own products or capabilities, it is agreed that the Contractor is precluded for the life of the system from award of a DoD contract to supply the system or any of its major components, and from acting as a subcontractor or consultant to a DoD supplier for the system or any of its major components.

(End of clause)

ALTERNATE I (JUL 2023). As prescribed in [DAFFARS 5309.507-2\(a\)\(2\)](#), either substitute paragraph (a)(2) of the basic clause with one or both of the following paragraphs, or use one or both in addition to the basic paragraph (a)(2). Use these paragraphs substantially as written.

(a)(2)(i) The Contractor shall prepare and submit complete specifications for non-developmental items to be used in a competitive acquisition. The Contractor shall not furnish these items to the DoD, either as a prime or subcontractor, for the duration of the initial production contract plus (insert a specific period of time or an expiration date).

The Contractor may not supply (identify the services, the system, or the major components of the system) for a period (state the duration of the constraint, however, the duration of the initial production contract shall be the minimum), as either the prime or subcontractor unless it becomes the sole source, has participated in the design or development work, or more than one Contractor has participated in preparing the work statement.

ALTERNATE II (JUL 2023). As prescribed in [DAFFARS 5309.507-2\(a\)\(3\)](#), either substitute paragraph (a)(2) of the basic clause with the following paragraph, or add the following in addition to the basic restriction. Renumber the paragraphs as needed if more than one restriction applies. Use this paragraph, substantially as written.

(a)(2) The Contractor shall participate in the technical evaluation of other Contractors' proposals or products. To ensure objectivity, the Contractor is precluded from award of any supply or service contract or subcontract for the system or its major components. This restriction shall be effective for (insert a definite period of time). This does not apply to other technical evaluations concerning the system.

ALTERNATE III (JUL 2023). As prescribed in [DAFFARS 5309.507-2\(a\)\(4\)](#), add the following paragraph (b) to the basic clause substantially as written:

(b) The Contractor may gain access to proprietary information of other companies during contract performance. The Contractor agrees to enter into company-to-company agreements to: (1) protect another company's information from unauthorized use or disclosure for as long as it is considered proprietary by the other company; and, (2) to refrain from using the information for any purpose other than that for which it was furnished. For information purposes, the Contractor shall furnish copies of these agreements to the contracting officer. These agreements are not intended to protect information which is available to the Government or to the Contractor from other sources and furnished voluntarily without restriction.

ALTERNATE IV (JUL 2023). As prescribed in [DAFFARS 5309.507-2\(a\)\(5\)](#), add the following paragraph (b) to the basic clause. If Alternate III is also used, renumber this to paragraph (c).

(b) The Contractor agrees to accept and to complete all issued task orders, and not to contract with Government prime Contractors or first-tier subcontractors in such a way as to create an organizational conflict of interest.

ALTERNATE V (JUL 2023). As prescribed in [DAFFARS 5309.507-2\(a\)\(6\)](#), add the following paragraph (b) to the basic clause substantially as written. If more than one Alternate is used, renumber this paragraph accordingly.

(b) The Contractor agrees to accept and to complete issued delivery orders, provided that no new organizational conflicts of interest are created by the acceptance of that order. The contracting officer shall identify the organizational conflict of interest in each order. The Contractor shall not contract with Government prime Contractors or first-tier subcontractors in such a way as to create an organizational conflict of interest.

ALTERNATE VI (JUL 2023). As prescribed in [DAFFARS 5309.507-2\(a\)\(7\)](#), add the following paragraph (b) to the basic clause substantially as written. If either Alternate III or IV or both are used, renumber this paragraph accordingly.

(b) The above restrictions shall be included in all subcontracts, teaming arrangements, and other agreements calling for performance of work which is subject to the organizational conflict of interest restrictions identified in this clause, unless excused in writing by the contracting officer.

(2) As a part of the proposal, the offeror shall provide the contracting officer with complete information of previous or ongoing work that is in any way associated with the contemplated acquisition.

(b) If award is made to the offeror, the resulting contract may include an organizational conflict of interest limitation applicable to subsequent Government work, at either a prime contract level, at any subcontract tier, or both. During evaluation of proposals, the Government may, after discussions with the offeror and consideration of ways to avoid the conflict of interest, insert a special provision in the resulting contract which shall disqualify the offeror from further consideration for award of future contracts.

(c) The organizational conflict of interest clause included in this solicitation may be modified or deleted during negotiations.

(End of provision)

ALTERNATE I (JUL 2023). At the discretion of the contracting officer, substitute the following paragraph (b) for paragraphs (b) and (c) in the basic provision:

The notice shall state the estimated amount of additional funds required to continue performance for the specified schedule period, limited by the not-to-exceed contract value.

(d) Sixty days before the end of the specified schedule period, the contractor shall give notice to the contracting officer of the estimated amount of additional funds required to continue long lead contract performance, when the funds will be needed, and any agreed to extension period specified in the Schedule.

MP5301.601 (a)(i) Department of the Air Force Approval Authority Matrices 2023 Edition

Tables 1 and 2 consist of delegations (or retentions) of authority made by the Department of the Air Force Agency Head (HoA), Senior Procurement Executive (SPE), Service Acquisition Executives (SAEs), and Head of Contracting Activities (HCAs). The Tables do not contain authorities originally invested somewhere other than those positions (e.g., certain class deviations which must be approved by DPC). **Table 3** reflects the authority to enter into, approve, or terminate Grants, Cooperative Agreements, Other Transactions and Procurements for Experimental purposes—including the issuance of a warrant for such purposes.

TABLE 1 – SAF/AQ NON-SPACE SYSTEMS AND PROGRAMS:

SAF/AQ is authorized to execute HoA, SAE, and SPE responsibilities for non-space systems and programs, including product support, unless otherwise noted in regulations or policy. For non-space systems and programs, including product support SAF/AQC (Deputy Assistant Secretary (Contracting) or the Associate Deputy Assistant Secretary (Contracting)) is designated HCA. Documents requiring HCA approval by SAF/AQC shall be submitted through the SCO to the [SAF/AQC Workflow](#). Approvals from SAF/AQ, SecAF, or DPC require coordination from SAF/AQC.

Packages submitted to SAF/AQ shall include an electronic Staff Summary Sheet (eSSS) in the body of the email or as an attachment (Word document only). Include any applicable documentation and list each attachment under “Tabs” on the eSSS using the exact electronic file name (e.g., ACE Acquisition Strategy) of the corresponding attachment. Changes recommended during the staffing process must be adjudicated by the contracting officer. Submit questions or concerns regarding processing packages that require SAF/AQ approval to [SAF/AQC Workflow](#).

TABLE 2 SAF/SQ SPACE SYSTEMS AND PROGRAMS:

SAF/SQ is authorized to execute HoA, SAE, and certain SPE responsibilities for space systems and programs, unless otherwise noted in regulation or policy. For space related systems and programs, the SSC/PK Director, the Space Development Agency (SDA) Director, or Space RCO (SpRCO) Director of Contracting are designated HCAs. Submit documents requiring HCA coordination or approval to the cognizant HCA workflow identified in [DAFFARS 5302.101](#). Approvals from SAF/AQ, SAF/SQ, DPC, or SecAF require coordination from the HCA.

NOTE : Further Delegable Columns with “**No**” indicate retained responsibilities or those that are non-delegable or cannot be delegated further per regulation or statute. Further Delegable Columns with “**Yes**” require written delegations approved by the Delegated Authority reflected.

MP5301.602-2 (d) Designation, Assignment, and Responsibilities of a Contracting Officer's Representative (COR)

The following are mandatory procedures (MP) for standardizing the Air Force (AF) contracting process regarding designation, assignment, and responsibilities of a Contracting Officer’s Representative. The assignment of a COR is not necessary when the CO retains or delegates surveillance to DCMA, or one of the categories of services exempted in [DAFI 63-138](#), except Construction. [DoDI 5000.72](#) requires COs to designate a COR for Construction contracts, unless the contracting officer retains and executes contract oversight responsibilities when the conditions of [DFARS 201.602-2](#) exist.

1.0 Contracting Officer Roles and Responsibilities

1.1 As part of the acquisition planning process, the CO must determine the nature of the work/requirement (Type A, B, or C) as specified in [DoDI 5000.72](#), *DoD Standard for Contracting Officer's Representative (COR) Certification*.

1.2 If the requiring activity has not yet initiated a COR nomination, the CO must initiate the Request for COR Support to notify the requiring activity of the need for COR(s) support and to prompt requiring activity nomination of a qualified COR via the Joint Appointment Module (JAM) (formerly CORT Tool) in [Procurement Integrated Enterprise Environment \(PIEE\)](#).

1.2.1 The Request for COR Support memorandum initiated by the CO should be routed through requiring activity (e.g., COR Supervisor, Functional Commander/Director (FC/FD)). See Enclosure 5 of [DoDI 5000.72](#), Qualification Requirements for CORs and Enclosure 6 of [DoDI 5000.72](#), Examples of COR Responsibilities and COR Certification Requirements. The COR must file the CO's Request for COR Support memorandum (if used) in the "COR Online File."

1.2.2 The CO must provide contract specific training (see paragraph 1.3.7). COR management is responsible for ensuring that any COR performing under a waiver pursuant to sections 1701-1764 of Title 10, United States Code completes all required training. New entrant and required DoD Component provided ethics (U.S. Air Force Annual Ethics Training for OGE Form 450 filers or DAU ACQ 0030 for non-OGE Form 450 filers) and combating trafficking in persons (CTIP) training may not be waived.

1.2.3 The CO shall perform, with participation of the COR and COR supervisor, a yearly administrative review of the COR's online file during the anniversary month of appointment, or more often, at the discretion of the CO. The CO shall upload the COR File Annual Checklist to the Surveillance and Performance Monitoring (SPM) (Formerly CORT Tool) in PIEE comprised of the minimum requirements of, COR-related documents necessary for the effective discharge of COR duties and responsibilities. The Checklist (available in SPM) shall guide the COR in populating the online COR File and serve as the basis for the CO to judge the accuracy and completeness of the COR file during each review. 1.2.4 Upon completion of each CO review of the online COR File, the CO shall document the results on the COR File Annual Checklist and upload each Checklist review to the SPM. 1.2.5 The COR Designation from the CO must also:

- (a) Designate the COR (if required) as an Assessing Official Representation (AOR) supporting the CPAR process;
- (b) Stipulate that the COR will be required to have access to the Synchronized Pre-Deployment & Operation Tracker (SPOT) (if required due to overseas deployment support); and
- (c) Stipulate whether the COR will require access to the System for Award Management (SAM) to review the contractor's service contract reports.

1.2.6 Notification of COR designation should be provided to the QAPC.

1.2.7. Distribution of the fully executed COR designation must be made to the COR, COR Supervisor, Contractor and Property administrator. In addition, notification must be sent to the local Judge Advocate General office or Office of General Counsel immediately upon the appointment of a COR designated as an OGE Form 450 filer, and annually by January 1st, a list of all CORs required to file [OGE Forms 450](#).

1.3 CO, Contract Specialist, or QAPC Led Training. The CO must ensure contract-specific training is scheduled and provided to the prospective COR, unless waived (see 1.2.2). The training may be conducted by the CO, Contracting Specialist, or QAPC, and must consist of the following at a minimum prior to contract award:

- 1.3.1 Duties/responsibilities to be delegated;
- 1.3.2 Importance of COR performance;
- 1.3.3 Personal conflicts of interest and potential conflicts of interest;
- 1.3.4 Unauthorized commitments;
- 1.3.5 Ethics/integrity in relationships with the CO, COR management (e.g., COR Supervisor, Services Designated Official (SDO), Functional Commander/ Directors (FC/FD)), and the contractor;
- 1.3.6 Discussion of the [Seven Steps to the Services Acquisition Process](#).
- 1.3.7 Contract-specific training consisting as a minimum of the following:
 - 1.3.7.1 A discussion of the contract (SOW, PWS, Specifications, etc.), and surveillance plan/QASP;
 - 1.3.7.2 An awareness of any areas in the contract susceptible to fraud, waste, and abuse;
 - 1.3.7.3 Creation, maintenance, and submission of all surveillance documentation and contractor performance assessment information required by the contract and applicable regulations;
 - 1.3.7.4 How the COR can stay abreast of contract modifications;
 - 1.3.7.5 How the COR can monitor contract fund status; and,
 - 1.3.7.6 Joint CO and COR review of the "COR File Annual Checklist" to ensure mutual understanding of the level/ quality of surveillance and documentation must be maintained in the on-line SPM file.

1.3.8 Refer to the [Suggested Contract-Specific Training Syllabus](#) template for conducting contract-specific training. The template may be tailored to fit your acquisition.

COR Performance and Appraisal

1.4 At a minimum, the CO and COR supervisor must review the COR's reports, files, and other documentation for completeness/accomplishment, on an annual basis.

1.5 The CO must provide an annual assessment, as a minimum, on the COR's performance to the COR supervisor. The assessment may be performed concurrently with the administrative review of the COR online file detailed in 1.2.3.

1.6 The COR must complete and upload reports to the SPM, as required, to enable the CO to review and approve/ reject reports in the SPM.

1.7 When the CO terminates the COR's duties (see [Termination of COR Designation](#)), a new COR can be nominated prior to terminating the former COR. The requiring activity must nominate a COR replacement via the JAM to ensure continuous contract monitoring by a qualified individual. Copies of the designation for the successor COR will have the same distribution requirements as the COR letter of designation.

1.8 When the requiring activity requests termination of COR designation, the CO must terminate the COR designation in writing (use of the "Smart Form" in the JAM is authorized). Include the signed [Termination of COR Designation](#) in the official contract file.

1.9 The CO must forward a copy of the fully executed [Termination of COR Designation](#) to the COR, COR Supervisor, Contractor, and as applicable, to the contract administration office(r).

2.0 COR Roles and Responsibilities

2.1 Register for JAM and SPM access through the PIEE e-Business Suite at <https://piee.eb.mil/>, and complete training to effectively perform duties in the SPM. Training includes a review the JAM and SPM Users Guide and FAQs, and if necessary, a request for additional training from a local Department Administrator (DA).

2.2 Provide information necessary to assess whether any actual or potential personal conflicts of interest with performing the responsibilities to be designated exist. Conflicts of interest determination will be reviewed again prior to contract award.

2.3 Participate, as requested, in annual CPAR procedures and contract close-out.

2.4 Remain abreast of changes to terms and conditions of the contract resulting from contract modifications.

2.5 Perform only those duties/responsibilities delegated by the CO in the [COR Designation](#).

2.6 CORs may be designated as the Assessing Official's Representative (AOR) by the CO in the [Contractor Performance Assessment Reporting System \(CPARS\)](#) IAW the CPARS Guide. If designated as an AOR, the COR would be responsible for providing a timely, accurate, quality, and complete narrative for a report on the contractor's performance. If the CO requires the COR to have access to the contractor performance assessment reporting system (CPARS), the [synchronized pre-deployment and operational tracker](#) (SPOT) or the [System for Award Management](#) (SAM), an account would be authorized and granted after COR designation.

2.7 If a Chief-Contracting Officer's Representative (C-COR) is appointed for a service contract pursuant to AFI 63-138 , Acquisition of Services, Chapter 2, the C-COR must maintain the sole online COR file in SPM for the contract. When a CO appoints a C-COR and CORs on the same contract, the relationship shall be annotated on the COR Designation.

3.0 COR Supervisor

3.4 Conduct regular reviews of COR inputs into SPM, and follow-up as necessary, on the content, timeliness, and completeness of COR Reports, online files, and other COR-related documentation.

3.1 Register for SPM access via the Procurement Integrated Enterprise Environment (PIEE) e-Business Suite at <https://piee.eb.mil/>, and then complete training to effectively perform duties in the SPM. Training includes a review of the JAM and SPM Tool Users Guide and FAQs, and if necessary, a request for additional training from a local DA.

3.2 Review and approve (certify) or reject COR nominations in the JAM, when submitted by an assigned COR in the JAM and notified by a system-generated email that a nomination is "Awaiting Approval".

3.3 The COR Supervisor shall ensure that the COR completes and uploads COR Reports to SPM, as required, to enable the CO to review and approve/ reject reports in the SPM.

4.0 OGE 450 Determination and Processing

4.1 A COR must file an [OGE 450](#) if determined to meet the criteria for filing a Confidential Financial Disclosure Report (OGE Form 450) as set forth in section 2634.904 of Title 5, Code of Federal Regulations, and section 7-300 of DoD 5500.07-R.

4.1.1 A COR need not be designated as an OGE 450 filer, IAW section 2634.904 of Title 5, if all of the following apply:

- (a) The COR will NOT participate personally and substantially in any contracting process,
- (b) The COR will NOT exercise substantial discretion, through interactions, decisions, or reports, that will influence the contractor's activities and result in a substantial economic effect on the contractor's interests,
- (c) The COR's work and judgment WILL BE subject to "substantial supervision and review" by the CO & COR Supervisor, with final authority deferred to the CO for contractor direction and contract-related matters, and (d) The COR's actions will NOT cause any conflict of interest (real or apparent) between the interests of the COR and the government and/or the contractor

4.2 The COR must submit the completed [OGE 450](#) directly to his or her supervisor and provide the information contained on the OGE 450 to the CO for review prior to submission to the local legal office by the required date.

5.0 Quality Assurance Program Coordinator (QAPC)

5.1 Train CORs and COR management [e.g., COR Supervisor, SDO, Functional Commanders/Directors (FC/FD)] on the contracting requirements associated with the quality assurance program and any MAJCOM/FLDCOM/DRU/DAFRCO procedures prior to contract award. See paragraph 1.5 herein.

5.2 Assist the CO in providing contract-specific training (to include refresher training) to the COR (Reference paragraph 1.3 above) and ensuring required training is accomplished in accordance with DoDI 5000.72, DoD Standard for Contracting Officer's Representative (COR) Certification, 26 Mar 15.

5.3 Monitor the inputs and use of SPM for the assigned organization. This requires registration, training, and designation as a local JAM/SPM DA or Manager Role by all QAPCs. DAs/Managers provide functional, not technical support, and provide for the continued deployment of JAM and SPM for new users and for the support of existing users in the local organization, by performing three categories of duties:

5.3.1 GETTING STARTED:

- (a) Advise or assist new users with initial JAM/SPM registration, or existing users with registration and profile updates, through the PIEE e-Business Suite platform;
- (b) Activate new roles (if designated as a DA) and added roles (only if a DA) after verifying proper completion of the automated DD2875; and,
- (c) Conduct JAM SPM training or provide training resources to users.

5.3.2 USER SUPPORT:

- (a) Advise and assist on the functions & features of JAM/SPM;
- (b) Use Administrator or Manager privileges to research, troubleshoot, and advise on reported functional issues;
- (c) Refer users to the PIEE Helpdesk, when a reported issue involves accounts, errors, or technical support;
- (d) Monitor records of all COR nominations, designations, and terminations of designations, to include COR's acknowledgement of their duties, by contract number and CO's name;
- (e) Monitor records of all COR and COR management training, including refresher training regardless of provider (e.g., QAPC, CO, contract specialist, contract administrator, Defense Acquisition University, or commercial training provider)

MP5301.603-90 Selection, Appointment, and Termination of Appointment of Contracting Officers

Revised: June 2023

(a) Applicability. This MP must be used when selecting, nominating, appointing, and terminating contracting officers (CO) to maximize standardization across the AF. Warrants are issued in accordance with [FAR 1.603](#), [DFARS 201.603](#), 10 U.S.C. § 1724 and this MP. The SCO may delegate this authority to the highest contracting official in the contracting chain at geographically separated organizations, but in no event will the designee be lower than a GS-15 (or equivalent) or O-6.

Authority to issue limited contracting officer warrants up to \$5M and authority to terminate appointments up to \$5M may be delegated, but in no event will the designee be lower than the COCO.

(b) Warranting. An individual selected for contracting officer appointment must be a military member in Air Force Specialty Code (AFSC) 64PX or 6C0X1 or a civilian in the GS-1102 occupational series who occupies a manned authorization listed under these specialty codes/series, and complies with the requirements at [DFARS 201.603-2](#) and this MP.

(c) Focal Point (FP). FPs must be designated in writing via the FP designation form and may be assigned unlimited or limited duties as indicated in the [Warrant Process Focal Point Designation Form](#). Each SCO is responsible for appointing FPs and must designate at least one FP with full duties. SCOs may delegate authority to appoint limited FPs to the COCO. This authority is not further delegable. Follow the form instructions when appointing FPs.

(d) AF CO Warrant Tracking Tool. All warrants are entered into and tracked via the AF CO Warrant Tracking Tool ([AFCOWTT](#)). FPs obtain access to the AFCOWTT by submitting a copy of the Warrant Process Focal Point Designation Form to [HQ AFMC/PK](#). Prior to obtaining access, FPs must request training on the use of the AFCOWTT by contacting HQ AFMC/PK, as applicable. FPs are responsible for entering all warrant data into the tool, and for uploading warrants ([SF1402s](#)) (and up to three past SF1402s), a copy of the Contracting Officer Test (COT) certificate, and the [Contracting Officer Appointment/Warrant Eligibility Transfer/Termination Request \(COWER\)](#). FPs also administer all other warrant actions and are responsible for maintaining current, accurate, and complete warrant data in the AFCOWTT.

(e) CO Warrant Nomenclature. All transferable warrants shall list "Department of the Air Force" on the "Organization" and "Agency/Department" lines of the [SF1402](#). All transferable warrants are numbered as follows: the first two positions are "AF", the third and fourth positions are the last two digits of the fiscal year (FY) in which the appointment is made, and positions 5-9 are obtained from the identification (ID) field of the AFCOWTT; for example, in FY21 an ID field number of 12345 would yield an appointment number of AF-21-12345. Current transferable warrants will be updated through attrition. All new non-transferable warrants will be numbered as follows: Organization-FY-XXXXX e.g., SSC-21-12499 for SSC; last 5 positions are obtained from the ID field of the AFCOWTT.

(f) Nominating Warrant Candidates. Warrant candidates are nominated by a candidate sponsor who shall be no lower than the candidate's first level supervisor. Submit warrant nominations to the designated FP using the [COWER](#).

(g) Contracting Officer Test. Candidates for warrants above the simplified acquisition threshold (SAT) must pass the two-hour timed, open book COT by achieving a minimum score of 80%.

(1) The COT is a proctored, computer-generated test containing 25 randomly selected true/false and multiple-choice questions from the FAR, DFARS, and/or AFFARS. Each question is worth up to two points.

(2) During the COT, candidates are limited to the use of electronic regulations available via [www.acquisition.gov](#) and hard copies of the FAR and DFARS (free of tabs and notes); however, hard copies will not be provided. Notes and electronic devices are not permitted in the testing site. Use of email, instant messaging, or any other form of electronic communication is prohibited during the COT.

(3) Candidates must provide the correct answer and the correct, associated complete reference (e.g., [FAR 15.401\(a\)\(2\)\(i\)\(B\)](#)), in order to earn two points. If the candidate answers the question correctly but provides an incorrect reference, one point will be received. If the candidate answers the question incorrectly but the reference correctly, the candidate will not receive any points as this indicates a failure to understand the regulation. The COT is automatically and electronically scored.

i. If the candidate fails to pass the COT, the candidate may challenge missed questions and/or references in accordance with the Proctor User Guide only when approval of the challenge would result in a passing score. (NOTE: Access to the guide is restricted to warrant focal points.)

ii. A candidate who fails the COT may retake it if authorized by their immediate supervisor and space is available. If the candidate fails to pass the COT on the second attempt, the candidate may not retake the COT until a six-month waiting period has passed.

iii. Supervisors are authorized to approve a maximum of two continuous learning points per 12-month period for an individual who completes the COT, whether for a warrant request action or for training purposes.

(4) Practice COT: A practice test titled Contracting Officer Demo Test - C10979 was developed to help familiarize warrant candidates with the question structure of the COT. The practice test is available via the [myLearning](#) site. It is a non-proctored, 50-minute, timed test consisting of ten questions which are electronically and randomly selected from a 20-question pool. Practice tests may not be administered on the SCORM site. There is no limit on the number of times the practice COT may be taken. The completion of a practice test shall not be used as the basis for warrant eligibility.

(h) Warrant Boards. Warrant boards are reserved exclusively for warrants exceeding \$25M and are used to further assess the candidate's experience, qualifications, communication skills, and overall demeanor.

(1) Warrant boards must be chaired by the appointing official or designee at a level no lower than:

- i. Deputy Director or Assistant Director of Contracting;
- ii. Technical Director/Assistant to the Director of Contracting;
- iii. Chief of the Clearance and Program Support Division or Chief of Policy;
- iv. Highest level contracting official at a geographically separated organization; or
- v. COCO, Deputy, or equivalent.

(2) Warrant boards must have a minimum of five members, including the board chairperson, participating to constitute a quorum. Suggested board composition includes:

- i. Contracting office supervisors;
- ii. Representative from the staff judge advocate office;
- iii. Competition Advocate;
- iv. Clearance/program support procurement analyst;
- v. Small business specialist/liaison;
- vi. Supervisors/Directors/Deputy Directors from other disciplines; and/or
- vii. Cost/Price Analyst

(3) Warrant board members may participate in person, by teleconference, or video conference at the discretion of the board chairperson.

(4) The warrant candidate must correctly answer and/or discuss no fewer than 10 questions, seven of which must be obtained from the scenario-based AF question repository. To obtain access to the question repository, submit the Warrant Process Focal Point Designation Form to [HQ AFMC/PK](#). The appointing official has the discretion to develop new question(s) for the remaining three questions, which may be scenario- or knowledge-based. The board shall include questions that address PEO, Enterprise, and Operational portfolios, as well as pricing, fiscal law, contract law, legal, and problem solving.

(5) The board chairperson/appointing official, in consultation with the board members, may appoint an unlimited warrant, a limited, specified dollar warrant, or none. Individuals awarded an unlimited warrant as a result of a warrant board shall not be required to sit before the board again, except in the case of a reappointment after a termination for cause (See Para. (s)).

(i) Unlimited Warrants. Unlimited warrants require a minimum of two years of contracting experience, a baccalaureate degree, successful completion of the COT and passing a warrant board. Additionally, unlimited warrant candidates, at a minimum, shall possess the DoD Contracting Professional Certification (Back-to-Basics) or legacy DAWIA Contracting certification. All unlimited warrants are transferable across the AF.

(j) Limited Transferable Warrants. Warrants limited by a monetary threshold are transferable across the DAF. Dollarized warrant limitations apply to the value of the instant contract action a CO is executing. For example, if a CO holds a limited warrant of \$5M and the contract award amount of the instant action is \$6M, the CO is not authorized to sign the contract; however, the same CO would be authorized to sign a \$5M funding action issued against the same contract.

(1) For limited warrants up to SAT, contracting personnel (including purchasing agents in the GS-1105 series) must have at least one year of contracting experience.

(2) For limited warrants exceeding SAT up to \$5M, contracting personnel must have a minimum of two years of contracting experience and have successfully completed the COT. Warrant boards shall not be convened for warrants within this threshold.

(3) For limited warrants exceeding \$5M up to \$25M, contracting personnel must have a minimum of two years of contracting experience, successful completion of the COT, and vetting process established by the appointing official and documented on the COWER. Warrant boards shall not be convened for warrants within this threshold.

(k) Local National (LN) Warrants. LNs in an equivalent occupational series to GS-1102 may be selected for a contracting officer appointment in accordance with this MP.

(1) Warrants up to SAT require a minimum of one year of contracting experience.

(2) A LN candidate for a warrant exceeding SAT up to \$5M must meet the following minimum functional training, work experience, and formal education requirements:

- i. Complete all contracting courses as required for a member of the DoD Contracting Professional Certification or legacy DAWIA Contracting certification in contracting required for the warrant amount;
- ii. Have a minimum of two years of contracting experience; and,
- iii. Possess a baccalaureate degree (or the equivalent).

(3) Warrants exceeding \$5M up to \$25M require a vetting process established by the appointing official and documented on the COWER.

(4) Warrants exceeding \$25M require a warrant board.

(l) A member of the contingency contracting force in AFSC 6C0X1 who does not possess a baccalaureate degree from an accredited institution may be nominated, evaluated, and selected for a limited warrant not to exceed \$25M in accordance with 10 USC 1724. Military and Civilian personnel with an active Department of the Air Force warrant, may use their existing warrant in support of Contingency Operations.

(m) Non-Transferable Warrants. Non-transferable warrants may be issued for specific functions or buying activities (e.g., contract closeout, defective pricing actions, funding modifications, administrative modifications, specific contracts, units, etc.) Candidates for limited non-transferable warrants above the SAT should pass the COT in accordance with this MP. Warrant boards shall not be used for non-transferable warrants; however vetting process may be used when the resultant contract actions are expected to exceed \$25M. The SF1402 must clearly state "Limited Non-Transferable Warrant" and cite the specific warrant limitations.

(n) Warrant Transfer and Reinstatement.

(1) Warrants issued in accordance with this MP, except for those issued in accordance with paragraph (m) above, are transferable across the AF. As long as a warrant is in good standing, an individual shall not be required to test or board again. However, warrant transferability does not guarantee immediate utilization, as the gaining appointing official may determine that time is needed to facilitate familiarity with new workload responsibilities and organizational procedures. Instructions regarding electronically transferring a warrant to a new organization are located in the AFCOWTT.

(2) Warrant reinstatement is applicable to an individual who previously held an AF warrant and whose warrant was subsequently terminated for reasons such as reassignment or resignation. A request to reinstate an AF warrant must be submitted to the appointing official for approval through the designated FP using the [COWER](#). The appointing official shall document their assessment and rationale for warrant reinstatement on the [COWER](#).

(o) Grandfathered Contracting Officers. Current COs are not required to be tested, boarded, or reappointed as a result of the issuance of, or changes to, this MP. However, those with limited non-transferable or limited transferable warrants must meet the requirements of this MP to obtain a transferable and/or higher dollar value warrant. Taking of the COT is only required for those candidates holding a limited non-transferable warrant. Due to changes in the DoD certification program, some candidates may be unable to complete certification. An individual without certification may be selected for contracting officer appointment (limited or unlimited) if approved by the warrant issuing authority (SCO/COCO).

(p) Warrants Issued Based on External Warrant Credentials. A new AF 1102 with external, federal government CO experience may be issued an AF warrant without meeting the requirements of this MP (COT and vetting process or warrant board) based on the discretion of the appointing official, provided they meet the qualification requirements at [DFARS 201.603-2](#). The appointing official must conduct an assessment of the candidate's qualifications and experience prior to the issuance of an AF warrant. The appointing official shall document the rationale for appointment on the COWER ([See sample criteria](#).)

(q) Warrant Reciprocity. In Aug 2022, the Assistant Secretaries of the Air Force and the Army (Acquisition, Technology, and Logistics) signed Memorandum of Agreement (MOA), [Cross-Service Contingency Warranting Procedures](#), between the two Departments. This MOA, which expires in Aug 2032, established a warrant reciprocity relationship during contingency operations as defined in 10 U.S.C. § 101(a)(13), or in support of an emergency or major disaster as defined in 42 U.S.C. § 5122, or as otherwise directed by the Secretary of Defense in support of U.S. government-led operations (hereinafter, "contingency operations"). The MOA mandates recognition of cross-service warrants and qualifications for both military and civilian personnel and requires each services' Head of the Contracting Activity (or delegated warranting authority) to recognize cross-service warrants and the qualifications and thresholds identified therein without additional testing, assessments, or issuing a new warrant. The intent of this MOA is to enable the lead Service for a contingency operation to avoid delays in providing expeditionary contracting support.

(r) Reissuance of Warrant Certificates. A request to reissue an existing warrant certificate for administrative purposes (e.g., damage to or deterioration of the original SF1402, name changes, etc.) is not a new appointment and may be submitted directly to the FP for processing to the appropriate appointing official; use of the COWER is not required. (s) Warrant Suspension or Termination for Cause. Warrants may be suspended or terminated for unsatisfactory performance. The appointing official may suspend a warrant in writing until proficiency is demonstrated to the satisfaction of the appointing official. If a warrant is terminated for cause, the candidate must be reappointed in accordance with paragraphs (i), (j), or (k) of this MP, to include a warrant board for reappointment of an unlimited warrant.

MP5301.9001i2vi - Clearance Approval when the HCA is SSC/PK Director

MP5301.9001i2viA (A) Procedures.

(1) The Clearance Approval Authority (CAA) is responsible for tailoring the documentation needs, briefing requirements, and review processes to fit each action subject to clearance approval. Guidelines to inform the CAA's decisions

regarding procedures are presented below. The contracting officer shall consult with the CAA early in the acquisition process to determine the documentation, briefing, and review expectations.

(a) Documentation and Briefing. The magnitude, complexity, and risk of the proposed action should govern the documentation and briefing requirements. The contract file must document the Clearance approval and identify the information relied upon in making the Clearance decision.

(b) Review. The magnitude, complexity, and risk of the proposed action should also inform review procedures (e.g., timing and duration of review, review team members, documentation to be reviewed, expected output from the review team). Clearance review provides an independent examination of the proposed action and may be conducted by the CAA or an independent advisor to the CAA. Clearance review at the SCO level is typically performed by SSC/PKV with support from SSC/PKF and SSC/JAQ. In some circumstances, inclusion of representatives from other functional organizations (e.g., SSC/FM, SSC/SB) may be beneficial.

(c) When a DoD Peer Review is required, Clearance should ordinarily be conducted prior to the Peer Review and Clearance approval should be made contingent on Peer Review results unless the Clearance Approval Authority directs otherwise

MP5305.3 - SYNOPSIS OF CONTRACT AWARDS

MP5305.303 Announcement of Contract Awards

The following mandatory procedure is provided for preparing 1279 Reports under [DFARS 205.303](#) and Reports of Intent to Award multiyear contracts under [DAFFARS 5317.170](#).

(a)(i) The 1279 Report is used for Congressional notification and public announcement of contract awards that exceed the DoD threshold. Use the 1279 Report Format in (d), tailored where appropriate, when preparing Reports of Intent to Award IAW [DAFFARS 5317.170](#). It is important to note that the Notice of Intent to Award IAW [DAFFARS 5317.170](#) does not satisfy the requirement for a 1279 Report.

(ii) Alternate 1279 reporting for the announcement of source selection contract awards. If the awardee information cannot be provided three days in advance, the report does not need to identify the offeror that has been selected for award. Insert "Source Selection Information - Will Advise" for "Contractor Data" and either "\$50 million or above" or "below \$50 million" for "Face Value" and "Funding Data". When using these procedures, provide the successful offeror, face value of the award, and funding data to [SAF/LLP](#) no later than 1300 hours Eastern the day before the anticipated award date. If SAF/LLP is not notified by 1300 hours Eastern the day before the anticipated award date, announcement of the award may need to be delayed.

(b) After a 1279 Report has been submitted, report any changes in plans promptly to [SAF/LLP](#).

(c) When immediate award is required and advance notification under paragraph (a) above was not accomplished, prepare the 1279 Report as usual and send it to [SAF/LLP](#). Include the justification for immediate award. If the Congressional and public announcement cannot be made the same day as the award, the contracting officer must obtain the contractor's agreement to withhold public announcement of the award until the award is posted on <https://www.defense.gov/News/Contracts/>. Include in the report a statement that this non-disclosure agreement has been made. The contracting officer will notify the contractor of the agreed upon date of public announcement. The award may then be made without the three-day coordination.

(d) Format (do not include classified information in the report):

(1) Format the SUBJECT line of the email as follows:

CUI: Release Date is DD MMM YY, Program Name, Contracting Activity, DD-LA-(AR) 1279 Report

(2) Release Date: Enter the date award is expected; exclude Saturdays, Sundays and holidays.

(3) Contract Action to be Taken (Select One): Contract Award, Contract Modification or Notice of Intent to Award

(4) The following information shall be included in the 1279 Report. The italicized information below serves as a placeholder for "fill-ins". Utilize the paragraph format provided to ensure the contract announcement is published. Do not use abbreviations and use full names of all contractors, including all subsidiary and division designations as appropriate. (Paragraphs 5 through 7 are to be incorporated into the report directly below one of the following paragraphs.):

The contract modification is for description of the scope of the contract (see examples). The location of performance is location as indicated in contract award. If applicable: This modification involves foreign military sales to country names. The work is expected to be completed by date. Fiscal year and type of funds are being obligated at the time of award. Total cumulative face value of the contract is \$figure. Contracting activity is the contracting activity (base, city and state). (Do not list fund cites here, see paragraph 6 below.) There is known/ no known congressional interest pertaining to this modification.

Examples of explanatory statements for description of scope of contract are as follows:

MP5315.3 Source Selection

1 PURPOSE, ROLES, AND RESPONSIBILITIES

1.1 Purpose

This Mandatory Procedure (MP) establishes supplemental procedures for conducting competitively negotiated source selections of \$10M or more within the Department of the Air Force (DAF), and follows the numbering convention of the [DoD Source Selection Procedures](#), dated 20 August 2022.

1.2 Applicability and Waivers

This MP must be used in conjunction with [FAR Part 15](#), as supplemented, to include the [DFARS Part 215](#) and its companion resource entitled Procedures, Guidance and Information (PGI), DoD Source Selection Procedures, and related laws, regulation, and policy. As guidance, this MP also provides hyperlinks to non-mandatory best practices, TTPs, sample RFP and contract language, tailorable templates and training materials.

[DoD Source Selection Procedures](#)

1) The requirement is non-complex and well-defined, such that consideration of non-cost/price evaluation factors (e.g., technical, past performance, etc.) would not provide any meaningful differentiation amongst proposals and would add no value to the selection of a successful offeror;

2) Past performance record and history will be assessed as one of the multiple standards required for a successful offeror to be determined responsible as described in [FAR 9.104](#);

3) Use of price as the only evaluation factor is the most advantageous approach to the government; and

4) The acquisition strategy approving official has determined that use of price as the only evaluated factor is the most appropriate source selection methodology for the requirement and the justification for this determination is included in the approved acquisition strategy/plan.

1.3 Best Value Continuum (No DAF Text)

1.4 Source Selection Team Roles and Responsibilities

1.4.1 Source Selection Authority (SSA).

1.4.1.1 SSA Appointment.

SSA Designations		\$10M to less than \$100M (Note 1)	\$100M and above (Note 2)
Program Acquisition Category (ACAT) I, IA		Cognizant SAE	Cognizant SAE
ACAT II and III		Program Executive Officer (PEO)	PEO
Operational & Enterprise (including services EXEMPT from AFI 63-138)		(Note 3)	(Note 3)
Operational & Enterprise Services Acquisitions subject to AFI 63-138	SSA is the Services Designated Official (SDO) as designated in AFI 63-138 , Table 2.1, the Services Management Agreement (SMA), if applicable, and the SDO delegation letter.		

<p>NOTES :</p>	<p>1. Delegable to no lower than the Procuring Contracting Officer (PCO)/equivalent or higher position within the PEO/ requiring organization chain.</p>	<p>2. Appointments in this column represent the written appointment of the SSA by the Agency Head. Delegable to no lower than one level above the PCO or equivalent or higher position within the PEO/ requiring organization chain.</p>	<p>3. The SSA is the Center Commander/Wing Commander/PEO or MAJCOM/FLDCOM/ DRU/FOA/DAFRCO director-level individual who is responsible for the requirement unless delegated in accordance with Note 1 for acquisitions \$10M to less than \$100M or Note 2 for acquisitions \$100M and above. A tailorable Delegation of Source Selection Authority (SSA) template is available for use, as desired.</p>
-----------------------	--	--	--

1.4.1.2 SSA Responsibilities. In addition to the responsibilities listed in [FAR 15.303\(b\)](#), [DFARS 215.303\(b\)\(2\)](#), and the DoD Source Selection Procedures, the SSA shall:

1.4.1.2.3 Be accessible to the PCO, SSEB Chairperson and SSAC Chairperson (if applicable) to ensure that necessary leadership and guidance is provided to the SST. Promote active communication within the SST and encourage the team to raise concerns/issues.

1.4.1.2.6 See the following tailorable templates:

1.4.1.2.6.1 [Source Selection Non-Disclosure Agreement \(NDA\)](#) . An NDA may be executed on an annual basis in accordance with [DAFFARS 5303.104-4\(a\)](#).

1.4.1.2.6.2 [Conflict of Interest Statement](#) .

1.4.2 PCO.

1.4.2.2 PCO Responsibilities. In addition to the responsibilities listed in [FAR 15.303\(c\)](#) and the [DoD Source Selection Procedures](#), the PCO shall:

1.4.2.2.2 Consider sample RFP Section L language for [Use of Non-Government Advisors](#), when applicable.

1.4.2.2.3 Manage all source selection documents, control and record all exchanges with offerors, and protect all documents (see Section 4). Consider identifying a Source Selection Records Custodian (SSRC) familiar with the contracting process to manage all source selection documents (PCO or someone under PCO oversight). Ensure source selection material is not removed, circulated, or disseminated outside of the source selection work area without PCO review and approval. Ensure all means of electronic communications receive additional scrutiny to preclude inadvertent release of documents that contain sensitive or embedded source selection files. It is a good practice that prior to transmission of Source Selection Information to offerors via any means, the information is reviewed by a second person to preclude inadvertent inclusion of inappropriate data. Additionally, Source Selection Information transmitted to offerors electronically (e.g., via email or disc) or posted to a website must be distributed in a “locked” format, such as scanned .pdf file, .jpeg file, or other protected format, unless offerors are required to fill-in or complete portions of a document, such as Section K Representations and Certifications, or a pricing matrix. Using e-mail to transmit source selection information should be done judiciously and it must be encrypted and digitally signed. Include in the subject line the phrase “Source Selection Information – See [FAR 2.101](#) and [3.104](#)”. Use the [Source Selection Information Cover Sheet](#) to identify source selection information. For RFPs released after 30 November 2020, use the [SF 901 Controlled Unclassified Information \(CUI\) Cover Sheet \(AF Template\)](#). A [sample Verification of Correspondence Going to Offeror checklist](#) may be utilized, as desired.

1.4.2.2.4 Maintain in the official contract file (whether in hard copy or electronic media) all evaluation material and any related supporting information, including minority and dissenting opinions, that has been presented in any form to the SSA as an official record that must not be altered. Updates, revisions, or changes to that evaluation information must be captured in subsequent documentation such that the original record remains distinct.

1.4.2.2.4.1 Working papers, calculations, and personal notes must be clearly identified as such and are not normally part of the official source selection record unless they include information relevant to the source selection decision and the information has not been captured in the official record. Solicit the advice of legal counsel and representatives from

the Acquisition Center of Excellence (ACE) (if used) regarding the management and/or retention determination of any paper or digital document generated during the source selection. Legal counsel, the SSEB Chair, SSRC (if other than the PCO) and the PCO must review any notes, working papers, and other documents for a retention determination at regular intervals during the source selection process and upon completion.

1.4.2.2.4.2 Preserve documents and data that are not stored within the electronic official contract filing system (e.g., classified documents, product samples, electronic media) as part of the official record and identify their physical location. A sample [Source Selection File Checklist](#) may be tailored for use, as desired.

1.4.2.2.4.3 Ensure that any requests for source selection delegations are properly accomplished and documented in the source selection file.

1.4.2.2.7 Send a notice to all appropriate organizations (e.g., user or requirements personnel, public affairs offices, etc., that could be contacted by offerors or media outlets concerning the requirement or acquisition) concurrent with issuance of the solicitation announcing that a source selection is in progress. For acquisitions estimated at \$100M or more, send the notice to the [cognizant HCA Workflow](#) for HAF-level notification. The notice shall:

- 1) identify the system, subsystem, service, or project involved;
- 2) identify the anticipated period of the source selection activities;
- 3) include a statement to the effect that contacts or briefings concerning the program by industry are no longer allowed outside of the formal source selection process; and
- 4) state that the PCO (include name and phone number) controls all contact or exchanges with industry/offerors and is the only person authorized to release source selection information before and after contract award.

A tailorable template for [Notice Announcing that a Source Selection is in Progress](#) is available for use, if desired.

1.4.2.2.11 Post [source selection lessons learned](#) no later than 90 days after contract award or termination/cancellation of the source selection.

1.4.3 SSAC.

1.4.3.2 SSAC Composition.

1.4.3.2.1 It is preferable that the SSAC Chairperson not be in the chain of command of the SSA.

1.4.3.2.2 For all new Milestone B (Pre-MDAP on Major Defense Acquisition Program lists) ACAT I and II competitive acquisitions, the specific composition of the SSAC should consist of senior leaders (flag rank or O-6/GS-15/NH-04 to the maximum extent practicable) from Program Management, Engineering, Finance, Legal, Contracting, Small Business, the ACE, and any other participants as determined appropriate by the SSA, who have recent experience in the successful conduct of source selections. The SSAC may be augmented with senior leaders from the SAF/AQ or SAF/SQ staff, when appropriate, to provide additional experience and expertise. The SSAC may also be supplemented by other subject matter experts at comparable functional positions. For non-weapon system acquisitions when an SSAC is used, the specific composition of the SSAC is at the discretion of the SSA, based upon the expertise required to accomplish a successful source selection.

1.4.4 SSEB.

1.4.4.4 SSEB Responsibilities.

1.4.4.4.1.7 It is considered a best practice for the Program Manager (PM), when one is assigned, to serve as the SSEB Chairperson. It is also a best practice that the SSEB chair not serve in multiple roles.

1.4.4.4.3 For source selections without an SSAC, the SSEB Chairperson must document in the source selection plan, whether or not the SSA wants the SSEB to perform the comparative analysis of proposals and provide that analysis and an award recommendation in the [SSEB Final Report](#).

1.4.6 Other Advisors.

1.4.6.1 Government Advisors. Foreign Military Sales (FMS) customers and international cooperative project partners may only participate in the source selection process as advisors. The PCO must not disclose to the FMS customer any form of cost or price data that is proprietary unless the offeror authorizes its release.

1.4.6.2.2 Limitations on use of nongovernment advisors. Nongovernment advisors shall not attend the past performance portion of evaluation briefings.

2 PRE-SOLICITATION ACTIVITIES

2.1 Conduct Acquisition Planning

2.2 Develop a Source Selection Plan (SSP)

The PCO and the SSEB chair, with assistance from SSEB members, as necessary, prepare the SSP. A [Source Selection Plan](#) template is available for use, if desired.

2.2.5 Evaluation Factors and Subfactors. When using VATEP, address the decision to use, or not use, an affordability cap, along with supporting rationale for the decision. If an affordability cap will be used, describe how it will be evaluated and whether offerors whose proposals exceed the affordability cap will be eligible for award.

2.2.6 Documentation. Briefing charts shall not serve as the SSEB Initial Report, Competitive Range Decision Document, updated SSEB Initial Report, or SSEB Final Report, but may be used to present summaries of these reports to the SSA. If briefing charts are used to comply with any other source selection documentation requirements set forth in the DoD Source Selection Procedures, a written script for each briefing must be maintained in the official (permanent) contract file. Briefings should summarize the evaluation and not duplicate the content of written reports.

2.2.9 Securing Source Selection Materials. Section 9.0 of the SSP (“Securing Source Selection Materials”) must include a plan and procedures which address the filing, protection, handling, maintenance, release, retention and disposition of all documents that constitute the complete source selection record. For those source selections utilizing an electronic system for source selection documentation, the SSP must include the process for handling documentation, such as the process for documenting the basis for any changes made to an evaluator’s finalized document. The plan must address training for all SST members to familiarize them with the plan/procedures and mechanism(s) to ensure compliance with the plan/procedures.

2.2.10 The PCO shall maintain the SSP after approval. Subsequent proposed changes to the source selection organization, to include the SSEB and the SSAC (when used), shall be documented in an addendum to the SSP and approved by the SSA unless the SSA delegates this approval responsibility to the SSEB Chairperson within the SSP.

2.3 Develop the Request for Proposals

2.3.1 Evaluation Factors/Subfactors. RFP [Section L and M samples](#) are available for use, as desired.

2.3.4.1 Cost or Price. The analysis technique(s) identified in [FAR 15.404](#), as supplemented, for the evaluation of the proposed cost or price shall be included in the evaluation criteria (Section M or equivalent provisions of the solicitation for commercial acquisitions).

2.3.4.1.1 When used, the Probable Cost estimate is the government estimate of the cost to acquire specified goods and/or services based on each offeror’s proposed approach. The Probable Cost is based upon an analysis of each offeror’s unique proposal in accordance with [FAR 15.404-1\(d\)](#). Define all the components that make up the aggregate government Probable Cost and specify them in Section M (or equivalent provisions of the solicitation for commercial acquisitions).

2.3.4.2.4 Affordability Cap. When an affordability cap is established, the affordability cap must be specified in the RFP and affordability must be included either as a go/no go gate or as an evaluation criterion in the RFP. The RFP must state whether proposals that exceed the affordability cap can be considered for award.

2.3.6. Requirements that fall within the areas of traditional offeror responsibility factors may trigger the Small Business Administration Certificate of Competency (CoC) process if such requirements are evaluated on an acceptable/unacceptable basis, as a rating of unacceptable for an otherwise apparently successful business offeror equates to a non-responsibility determination. For example, issues related to facility clearance/security requirements or evaluation of professional employee compensation as an element of responsibility are areas that may trigger the CoC process for small business offerors. PCOs should consult with small business and legal counsel regarding the use and treatment of such evaluation factors/subfactors.

2.4 Release the Request for Proposals (No DAF Text)

3 EVALUATION AND DECISION PROCESS

3.1 Evaluation Activities

3.1.1.5 When [FAR 52.222-46](#), Evaluation of Compensation for Professional Employees (Feb 1993), is included in the RFP, the Government shall evaluate whether all offerors considered for award understand the contract requirements and have proposed a compensation plan appropriate for those requirements. This evaluation may be accomplished through a technical subfactor to evaluate offerors’ proposed management approach and or/staffing plan, or including the evaluation under the cost/price factor or as a “Volume I” proposal submission and element of proposal compliance and offeror responsibility.

3.1.1.5.1 When including the professional employee compensation evaluation as a “Volume I” proposal submission and element of proposal compliance and offeror responsibility in a source selection with small business offerors, a finding of non-responsibility due to an inadequate professional employee compensation plan for an otherwise successful small business offeror requires the PCO to engage the Small Business Administration Certificate of Competency (CoC) process.

3.2 Documentation of Initial Evaluation Results

3.2.1 SSEB Initial Evaluation. The SSEB Initial Report is used to document the results of the SSEB’s initial evaluation. The rationale for initial evaluation results and assignment of initial ratings will be fully and contemporaneously documented in the SSEB Initial Report. The SSEB Initial Report shall be signed by the PCO and SSEB Chairperson after the completion of initial evaluations and prior to presentation of the initial evaluation results to the SSA. The following tailorable templates are available for use, as desired:

[SSEB Report Initial Evaluation Briefing](#)

3.3 Award without Discussions

3.3.3 Documentation Required Prior to Contract Award. The PCO must obtain contract clearance approval in accordance with [DAFFARS 5301.9000\(e\)\(1\)](#) prior to the SSA making the decision to award without discussions.

3.4 Competitive Range Decision Document

3.4.1 The tailorable [Competitive Range Decision Document](#) (CRDD) template is available for use, as desired.

3.5 Discussion Process

3.5.5 Best Practices. The PCO may provide offerors in the competitive range with their own initial ratings and results of their own initial pricing analysis or total evaluated price. When interim ratings and pricing analysis are provided prior to requesting final proposal revisions, the ratings must reflect the results of discussions with the offeror. PCOs may use the actual briefing charts used to brief the SSA as a method of disclosing an offeror’s ratings and price analysis to them. The PCO must require offerors to provide proposal change pages along with their EN responses for any aspect of the proposal that will be incorporated into the awarded contract.

3.5.7 The SSEB Initial Report shall be updated, as necessary, following evaluation of offeror responses to discussions. The rationale for updated (interim) evaluation results and assignment of updated (interim) ratings will be fully and contemporaneously documented in the SSEB Initial Report. The updated SSEB Initial Report is reviewed by the SSAC (if an SSAC is used) and must include, if applicable, any minority and dissenting opinion(s). At a minimum, the report shall be updated and signed by the PCO and SSEB Chairperson prior to presentation of the pre-Final Proposal Revisions evaluations and briefing to the SSA.

The following tailorable templates are available for use, as desired:

[SSEB Report Pre-Final Proposal Revisions \(FPR\) Request Briefing](#)

3.6 Final Proposal Revisions

3.6.3 The PCO must obtain contract clearance approval in accordance with [DAFFARS 5301.9000\(e\)\(2\)\(i\)](#) prior to submission of all material (e.g., Pre-FPR briefing) to the SSA to obtain approval for releasing the FPR request.

3.7 Documentation of Final Evaluation Results

3.7.1 The rationale for final evaluation results and assignment of final ratings will be fully and contemporaneously documented in the SSEB Final Report. The SSEB Final Report is prepared by the SSEB and reviewed by the SSAC (if an SSAC is used) and signed by the PCO and SSEB Chairperson after the evaluation of FPRs. The tailorable [SSEB Report](#) template is available for use, as desired.

3.7.2 The SSEB Final Report must document, if applicable, any minority and dissenting opinion(s).

3.7.3 A decision briefing, prepared by the SSEB, will generally be conducted whenever the SSA is other than the PCO. The tailorable [Final Decision Briefing](#) template is available for use, as desired.

3.8 Conduct and Document the Comparative Analysis

3.8.1 The SSAC’s comparative analysis of proposals and award recommendation is documented in the Comparative Analysis Report and Award Recommendation (CAR). The tailorable [Comparative Analysis Report and Award Recommendation](#) template is available for use, as desired.

3.9 Best Value Decision

3.9.1 The PCOMust obtain contract clearance approval prior to the SSA making a source selection decision in accordance with [DAFFARS 5301.9000\(e\)\(2\)\(ii\)](#).

3.10 Source Selection Decision Document

3.10.1 The tailorable [Source Selection Decision Document \(SSDD\)](#) template is available for use, as desired.

3.11 Debriefings (No DAF Text)

3.12 Integrating Proposal into the Contract

The RFP must advise offerors that the awarded contract document will reflect all beneficial aspects of the awardee's proposal and all above threshold (minimum) attributes, performance levels, or capabilities for which evaluation credit was given in the source selection process (e.g., purple or blue technical or technical/risk rating, above threshold elements proposed for valued requirements), regardless of source selection process utilized.

4 DOCUMENTATION REQUIREMENTS

4.1 Minimum Requirements

4.1.15 All briefing charts presented to the SSA (including, but not limited to, competitive range briefing charts, pre-FPR request briefing charts, and decision briefing charts) must be included in the official (permanent) contract file.

4.1.16 Evaluation worksheets and summaries shall be included in the official (permanent) contract file.

4.2 Electronic Source Selection

EZ Source is the standard Air Force documentation tool that shall be used for all unclassified competitive acquisitions valued at \$100M or more (unless waived by the CAA), or when an acquisition has been designated a high visibility program by a PEO or Center/Complex/Wing Commander. EZ Source may be used for acquisitions valued at less than \$100M. In order to ensure proper support is available to the team, PCOs must use the [SharePoint EZ Scheduler](#) to request the use of EZ Source and input information relative to their acquisition not later than 60 days prior to the projected RFP release.

4.3 Tactics, Techniques and Procedures (TTP), Samples, and Tailorable Templates

Source Selection TTPs can be accessed at the [DAF Contracting TTP Team](#) page.

Templates: A comprehensive collection of source selection samples and tailorable templates, including those listed below, are located on the [Contracting Templates](#) and [DAFFARS Library, Part 5315](#) pages within the Air Force Contracting Central (AFCC) SharePoint site (please note: this link requires CAC and is not available to all users.)

5 DEFINITIONS (No DAF Text)

6 MANDATORY AIR FORCE SOURCE SELECTION TRAINING

6.1 Purpose

This Section establishes and standardizes the mandatory Air Force source selection training process for acquisition/SSTs.

6.2 Responsibilities of Senior Contracting Officials (SCO)

SCOs must: (a) implement a robust source selection training program; (b) designate a Training Manager/Point of Contact (POC); (c) designate experienced source selection trainers; and (d) maintain current lists of the Training Managers/POCs for use at their respective locations. The lists should be updated as necessary, but at a minimum shall be updated annually. A Designation of Source Selection Training Manager/Trainers template is available for use, as desired.

6.3 Required Training for Designated Trainers

6.3.1 Designated trainers must receive “Train-the-Trainer” training and be certified as source selection trainers. Periodic “Train-the-Trainer” sessions are conducted by [SAF/AQCP](#) personnel every other month via webinar; however, this training may be conducted by any SCO-designated and experienced source selection trainer. Note that this is summary-level training designated trainers and not for use by source selection teams and other individuals to satisfy the source selection training requirements set forth in paragraph 6.4.1.

6.3.2 Training Managers/POCs must maintain a record of the source selection training provided by designated trainers, including the name of the acquisition, training date, names of individuals trained, and training provided (e.g., Phase I (Acquisition Planning) or Phase II (Source Selection Execution) training).

6.3.3 Designated trainers who have not conducted source selection training within a two (2) year period must be recertified. Recertification requires that the SCO confirm the individual’s continued designation as a source selection trainer and that the individual re-complete the “Train-the-Trainer” training.

6.4 Acquisition/Source Selection Team Training

6.4.1 Conducting Source Selection Training Sessions.

Source selection training must be presented to the entire SST, including the SSA, SSAC Chair and members, PM (where one is assigned), RO, and all advisors. Independent review of source selection training materials by SST members and/or attendance at “Train-the-Trainer” training is not sufficient to satisfy this training requirement.

Specialized executive level training modules are available for the [SSA](#) and [SSAC](#).

[Phase I](#) (Acquisition Planning) training should be presented at the earliest stage of an acquisition and covers the acquisition process up to release of the RFP.

[Phase II](#) (Source Selection Execution) training is presented prior to or immediately after receipt of proposals.

6.4.2 Training Content and Process.

The SAF/AQCP Knowledge Management Team develops and maintains source selection training modules to assist Source Selection Trainers. Trainers are encouraged to tailor the modules, as needed, to meet the unique elements of the instant acquisition.

The **Ethics, Procurement Integrity, and Conflicts of Interest** topic should be presented by the local legal advisor. Links to Ethics training material are included in both Phase I and Phase II source selection training materials. The use of locally-developed Ethics training by local legal advisors is encouraged. The length of the source selection training and the level of detail presented in either Phase I (Acquisition Planning) or Phase II (Source Selection Execution) depends on the complexity of the specific acquisition and the experience level of the SST.

6.4.3 Advance Preparation.

Effectiveness of the source selection training experience can be enhanced with advance preparation. The Defense Acquisition University (DAU) offers [continuous learning modules](#) on source selection and related topics. Some suggested DAU courses include the following:

[CLC 004](#) - *Market Research*

[CLC 028](#) - *Past Performance Information*

[CLC 132](#) - *Organizational Conflicts of Interest*

[CLM 049](#) - *Procurement Fraud Indicators*

6.5 Source Selection Training Material

The Source Selection Training Modules, Trainer’s Lesson Plans, and Resource/Reference Material are accessible by designated trainers and training managers on SharePoint at https://usaf.dps.mil/sites/AFCC/KnowledgeCenter/source_selection_training/Forms/AllItems.aspx. Additional training materials for teams are available in the [DAFFARS Library, Part 5315](#).

6.6 Training Certificates.

Any Trainer conducting “Train the Trainer” training will provide a Source Selection Training Certificate to the Training Managers/POCs and Trainers upon completion of the source selection training. Trainers must provide the Source Selection Training Certificate for [Phase I](#) and [Phase II](#) to the personnel they train.

6.7 Source Selection Training Survey.

Following training, personnel are encouraged to complete the [Source Selection Training Survey](#). The feedback provided through the survey will enable the SAF/AQCP Knowledge Management Team to gauge the effectiveness of its source selection training material and obtain suggestions for improvement.

6.8 Continuous Learning Points (CLP).

Designated Source Selection trainers may grant CLPs to source selection attendees. As a general rule, CLPs must be given based on the length and intensity of the training provided. Trainers may grant six (6) CLPs for each full day of instruction, three (3) CLPs for half-day, and one (1) CLP for a two-hour session.

MP5315.4 Contract Pricing

MP5315.400-1 Proposal Instructions.

To facilitate timely awards of sole source contract actions and definitization of Undefined Contract Actions (UCA) within 180-days after receipt of qualifying proposal, contracting officers:

- a. provide contractors with clear and concise proposal instructions, including a suspense date for proposal submission;
- b. require that contractor proposals (both prime and subcontractors) are submitted as adequate for evaluation and valid for the anticipated time required to conduct evaluation, audit, negotiation and award, with data updates provided until the conclusion of negotiations in accordance with Truthful Cost or Pricing Data Act[PS1] .
- c. Include DFARS provision [252.215-7009](#) in sole-source draft and final Requests for Proposals (DRFPs/RFPs) and RFPs for UCAs when the contract value is anticipated to exceed the threshold for obtaining certified cost or pricing data, and no exception to the requirement to submit certified cost or pricing data applies. (See [FAR 15.403-1\(b\)](#).)
- d. Include a provision substantially the same as L-XXX, Cost Proposal Adequacy and Structure, in the solicitation, or as a paragraph within a letter RFP, whenever DFARS provision [252.215-7009](#) is included. Add paragraph (e) to provision L-XXX, Cost Proposal Adequacy and Structure, only when an electronic version of the cost proposal with active formulas (e.g., in Excel) is required. Contracting officers may tailor this provision as necessary to reflect the unique circumstances of each acquisition.

L-XXX COST PROPOSAL ADEQUACY AND STRUCTURE

NOTE : *The blue italicized text below represents instructions for the contracting officer and should be removed prior to incorporating Section L into the solicitation.*

(a) In response to this Request for Proposals (RFP), the offeror shall prepare and submit certified cost or pricing data and supporting attachments in accordance with Table 15-2 of [FAR 15.408](#). Further, the offeror shall (1) utilize the DFARS provision [252.215-7009](#), *Proposal Adequacy Checklist (PAC)*, in pre-submission proposal quality reviews, and (2) furnish the completed checklist as part of their proposal submission.

(1) The responsibility for providing a well-prepared and fully supported cost proposal lies solely with the offeror. The basis and rationale for all proposed costs shall be provided as part of the proposal so that the contracting officer has the information necessary to evaluate the reasonableness of the proposed price.

(2) If the offeror is unsure as to whether a checklist item is required in support of the proposal, or how to adequately comply with a checklist item, the offeror shall contact the contracting officer as soon as possible after receipt of the RFP, but in any case prior to proposal submittal, to resolve the questions.

(3) Non-compliances with the DFARS Proposal Adequacy Checklist and the additional requirements of this provision will require immediate correction. However, completion of the checklist does not relieve the offeror from the responsibility to comply with all applicable regulations and any special requirements of the solicitation.

(4) The offeror is encouraged to flow down this provision to subcontractors/affiliates required to submit certified cost or pricing data in support of this RFP.

(b) The offeror is advised that the contracting officer may find costs associated with revision/rework of inadequate cost proposals unreasonable, and will consider the nature and extent of any proposal inadequacies when assessing/negotiating profit.

(c) In order to preclude delays in negotiations and contract award, the completed PAC submitted with the proposal shall provide a clear explanation for any checklist items not included in the proposal, particularly items not provided based on any of the exceptions to certified cost or pricing data found at [FAR 15.403-1\(b\)](#) and [DFARS 212.102\(a\)\(i\)\(B\)](#).

(d) Cost Proposal Requirements. In addition to the requirements identified in the DFARS PAC, the following also apply to the cost proposal submitted in response to this RFP.

(1) Breakout by Year. If the proposal includes more than one CLIN, the proposal shall include a breakout of CLIN prices by cost element by Contractor Fiscal Year (CFY). At the contracting officer's direction, the breakout by year shall also be provided by: *(select applicable breakouts)*

Government Fiscal Year (GFY)

Calendar Year (CY)

The proposal shall define the timeframe of the Contractor Fiscal Year (for example, January – December).

(2) If the proposal includes more than one CLIN/subCLIN, recurring/non-recurring costs shall be identified for each CLIN/subCLIN.

(3) When the proposal includes material costs, the proposal shall include a consolidated bill of materials (CBOM) at the total contract level in an electronic, sortable format (Excel spreadsheet or other format approved by the contracting officer).

i. When the amounts proposed in the CBOM include application of escalation, the proposal shall identify the base value, the escalation rate(s) used, and the escalation amount associated with each item escalated.

ii. When the proposed amount is based on historical data which has been adjusted (for example, for differences in quantity), the CBOM shall clearly identify the adjustments made to the historical data and the reason for each adjustment.

(4) All costs proposed on the basis of Cost Estimating Relationships (CER) shall be fully supported. The proposal shall identify the basis for the proposed rate, shall identify the base to which the rate is applied, and shall clearly demonstrate the calculation of proposed costs based on CERs.

(5) For any costs incurred prior to proposal submission, the proposal shall identify actual hours and cost incurred as well as hours/costs to complete and the time phasing associated with these hours/costs. This information/data shall be provided in a time-phased cost element summary format.

(6) Submission of Historical Actual Costs Incurred. *(Insert in RFPs for follow-on efforts as applicable. The contracting officer may identify specific contracts for which submission of actual cost data is required (for example, the last three lot buys of the same item), or may require that the contractor identify its most recent sales of the items to any customers, if the contractor's sales base is broader than the current buying office. Language may be tailored to request insight into specific areas of cost (e.g., sustaining engineering hours). However, the contracting officer should take into consideration the extent to which the contractor's existing business systems can support requests for granularity in reporting of actual costs incurred, as well as the potential time and cost involved in obtaining very detailed or low-level historical actuals.)*

(i) The contractor shall provide the following information for these prior acquisitions: *[contracting officer identifies the specific acquisitions for which actual cost data is required. Alternately, the contracting officer may require the contractor to identify prior and current contracts for the same items covered in this RFP.]* For these contracts, the contractor shall provide the following information:

- a. contract number (including modification number if applicable) or other identifier;
- b. contract type;
- c. contract quantity;
- d. contract price; and

e. actual cost incurred, including a breakout of actuals as recurring/non-recurring costs. If performance is not complete on any of the specified contract actions, provide an estimate to complete and the basis for that estimate.

(ii) The contractor shall also request that its top five major sole source subcontractors provide the information listed in the above paragraphs (i) a. through e. on prior contracts for items the prime is purchasing from the subcontractors for this effort. If a subcontractor's information on prior actuals is not included in the prime's proposal, the proposal should identify status and anticipated receipt date(s). If the subcontractor deems the information proprietary, the subcontractor may submit the information directly to the contracting officer.

(7) The proposal shall identify those actions where assist audits have been requested by the prime or sub-tier contractors and identify the request date and scheduled receipt date for those audits. The need for assist audits resulting from proprietary data rights assertions at any tier shall be identified to the contracting officer as soon as the offeror becomes aware of the need. Government performance of assist audits does not relieve the offeror of the responsibility to accomplish and provide its price/cost analysis of the subcontracts.

(8) If the offeror intends to request Performance-Based Payments (PBP), the offeror's proposal shall include a monthly expenditure profile, proposed events and their projected completion dates, rationale on why the proposed event demonstrates significant progress towards the completion of the end item, proposed values for each event, completion criteria for each event, and an identification of each event as severable or cumulative.

(9) Commercial product and commercial service considerations:

i. The offeror's proposal shall provide support for any subcontractor commercial product or commercial service determinations, addressing, at a minimum, the following:

- a. A description of the supplies or services;
- b. Specific identification of the type of commercial product or commercial service claim ([FAR 2.101](#) commercial product sub-definitions (1) through (6) or commercial service sub-definitions (1) through (3)), and the basis on which the product or service meets the definition; and
- c. For modified commercial products (commercial product sub-definition (3)), classification of the modification(s) with supporting rationale as either:

1. Of a type customarily available in the commercial marketplace ([FAR 2.101](#) commercial product sub-definition (3) (i)); or

2. A minor modification of a type not customarily available in the commercial marketplace made to meet Federal Government requirements ([FAR 2.101](#) commercial product sub-definition (3)(ii)).

Note that per [FAR 15.403-1\(c\)\(3\)\(iii\)\(B\)](#), modifications that meet the definition of minor modifications of a type not customarily available in the commercial marketplace as defined in [FAR 2.101](#), paragraph (3)(ii) of the commercial product definition, will require the submission of certified cost and pricing data when the total price of all such modifications exceeds the greater of the threshold for certified cost or pricing data ([FAR 15.403-4](#)) or 5% of the total price of the contract at the time of contract award.

ii. For proposed subcontract commercial products or commercial services “of a type”, or “evolved” or modified ([FAR 2.101](#) commercial product sub-definitions (1) through (3) or commercial service sub-definition (2)), the offeror shall provide a technical description of the differences between the proposed product or service and the comparison product or service and thoroughly address the cost differences between the proposed product or service and the comparison product or service.

iii. The proposal shall include, or the offeror shall make available, data other than certified cost or pricing data to establish price reasonableness of the proposed subcontract commercial product or commercial service (to include any modifications not subject to the requirement to submit certified cost or pricing data) by supplying:

a. Information/data related to competition, if competition is the offeror’s basis for asserting the reasonableness of the proposed subcontract price.

b. Information/data related to prices (sales data, market price assessments, etc.). Note that subcontractors may submit sales data directly to the contracting officer if the subcontractor deems the data proprietary.

c. The prime contractor’s or higher tier subcontractor’s price analysis/price reasonableness determination for the commercial subcontract in accordance with [FAR 15.404-3\(b\)\(1\)](#) and (2).

d. Cost information/data (cost element breakdown and supporting documentation not subject to certification in accordance with [FAR 15.406-2](#)). Instances where cost information may be required include but are not limited to commercial products offered but never actually sold to the public, “of a type” commercial products or commercial services, or when sales data is limited and/or not recent and/or not for the same/similar quantities.

Note that the preferred method of establishing the price reasonableness of commercial products and commercial services is to obtain commercial sales data. It is recognized that other methods, such as market price assessment data or evaluation of cost data not subject to certification, are also acceptable when prior sales data cannot be obtained. Sales data shall (1) demonstrate sales to the general public; (2) be current; and (3) where possible, be in like quantities. Products sold to state, local, or foreign governments or products sold with applications only to state, local, or foreign government or US Government end items are not considered to be sales to the general public unless the proposed commercial product meets the [FAR 2.101](#) commercial product definition sub-definition (6).

(10) Additional Cost/Price Proposal Requirements: *(Identify any additional requirements applicable to the solicitation, or enter “N/A”.*

- If an electronic CBOM providing traceability to the CLIN level, to WBS paragraph, etc. is required, identify that requirement in this paragraph.

- If sales data supporting price reasonableness of a commercial product or commercial service is required, use this paragraph to provide specifics as to the level of detail and applicable date range(s) of the sales data.

- If a breakout of basic and options is required, detail that requirement here)

Add the following paragraph to provision L-XXX, Cost Proposal Adequacy and Structure, only when an electronic version of the cost proposal with active formulas (e.g., in Excel) is required. This paragraph may be tailored as necessary to describe the specific requirements of the electronic cost model.

(e) Submission of electronic cost model. *(Tailor as needed for each specific circumstance. If electronic cost models are required for any subcontractors or affiliates, identify those requirements within this paragraph.)* The proposal submission shall include an electronic cost model with active formulas demonstrating the mathematical calculation of the proposed cost (in Excel or other format approved by the contracting officer). The electronic cost model shall include build-up by year of cost in total and by CLIN/subCLIN, consistent with the yearly breakout required by paragraph (d)(1) of this provision, or as directed by the contracting officer. If applicable, the electronic cost model shall link each Work Breakdown Structure (WBS) to the applicable CLINs. The electronic cost model shall roll up to an annual and total program summary by cost element. All information supporting each CLIN should be visible and verifiable in the electronic cost model. The formulas included in the electronic cost model shall not be locked, and the model shall be editable by the Government.

NOTE : *The blue italicized text above represents instructions for the contracting officer and should be removed prior to incorporating Section L into the solicitation.*

MP5315.400-2. Requesting data/documentation after receipt of the proposal.

a. A contracting officer request for supporting data/documentation from a contractor (whether verbally or in writing) after proposal receipt, must clearly state what data/documentation is needed and when it should be provided.

b. If requested data/documentation is not readily available because of extenuating circumstances (e.g., data that did not form the basis of the contractor's proposal), the contracting officer and the contractor should agree in writing as to a reasonable time for submittal of data.

c. Where system generated data is to be provided, the contracting officer should review the data fields to be reported before the data is generated to ensure a common understanding of what is needed. Inform the contractor that all data requests will be tracked and will be considered open action items until the Government concurs that the data has been received and is complete.

d. If the data is not provided by the requested date or, if applicable, the agreed-to-date, and an acceptable resolution cannot be achieved, the contracting officer must elevate the issue to appropriate senior contracting management for both the Government and the contractor until an appropriate resolution is reached. The contracting officer must document the outcome of the elevation process in writing to include any revised dates for receipt of requested data/documentation. See the [DoD Sole Source Streamlining Tool Box](#) for the recommended elevation process, as well as other streamlining techniques.

e. If, after elevation, an acceptable resolution has not occurred or the contractor fails to provide the data/documentation within the revised agreed-to date, the contracting officer may take remedial actions:

for UCAs, contracting officers should consider reducing or suspending progress payments ([FAR 32.503-6](#)) when the contractor does not submit a timely qualifying proposal or has otherwise not supported the established definitization schedule; and/or

assign an unsatisfactory rating for a singular performance problem, such as the failure to submit a timely, complete and quality proposal (or subsequent data submissions), in connection with a UCA when the problem is of such serious magnitude that it alone justifies an unsatisfactory Contractor Performance Assessment Reporting System (CPARS) rating in the assessment of Management Responsiveness (Block 18d(1) for a Systems CPAR) or Business Relations (Block 18d for a Non-Systems CPAR). Ratings must track to the Evaluation Ratings Definitions found in [FAR 42.1503\(h\)\(4\)](#).

f. Consistent with the notice given to contractors in the provision L-XXX, Cost Proposal Adequacy and Structure, in situations when the contractor's original proposal is inadequate and requires revision or rework, contracting officers should consider whether to recognize as reasonable any contractor costs associated with the revision/rework effort and must consider the nature and extent of any proposal inadequacies when negotiating profit.

MP5315.404-1-90 Pricing Assistance or Pricing Assistance Waiver**(b) Requesting Pricing Assistance.**

(1) "Full Pricing Assistance" means the price analyst accomplishes the majority of the pricing effort (e.g. pricing case) for a specific contract action which meets or exceeds the thresholds identified in [DAFFARS 53153404-1-90\(a\)](#). Submit the request for pricing assistance in accordance with the local submission process. If no local process exists, submit requests for pricing assistance to the Pricing Chief (or Chief of the Clearance and Program Support office where there is no designated Pricing Chief). The contracting officer may also request full pricing assistance for actions below the thresholds identified in [DAFFARS 53153404-1-90\(a\)](#) when additional pricing expertise is needed. The Pricing Chief (or Chief of the Clearance and Program Support office where there is no designated Pricing Chief) is the approval authority for those requests, on a case by case basis. See the tailorable [Request for Pricing Assistance or Pricing Assistance Waiver](#) template.

(2) "Tailored Pricing Assistance" may also be requested for actions below the mandatory thresholds (or in conjunction with a Pricing Assistance Waiver Request) and will be provided at the discretion of the Pricing Chief (or Chief of the Clearance and Program Support office where there is no designated Pricing Chief). See the tailorable [Request for Pricing Assistance or Pricing Assistance Waiver](#) template. Examples of Tailored Pricing Assistance that may be available include:

- (i) Assistance with completion of the Weighted Guidelines (DD Form 1547)
- (ii) Pricing inputs for business/contract clearance
- (iii) Cost proposal spreadsheet development/modeling
- (iv) Defective pricing
- (v) Assistance with structuring Economic Price Adjustment (EPA) clauses
- (vi) Assistance with determination of final prices of incentive contracts
- (vii) Claims
- (viii) PNM review
- (ix) Assistance with/review of reopener clauses

- (x) Evaluating Performance Based Payments
 - (xi) Source selection support, including drafting and/or review of Sections L and M, drafting cost sections of briefings and reports, and review of pricing volumes of proposals
 - (xii) Rate and factor reviews when DCMA assistance is not available
- (3) Request pricing assistance as early as practicable in the acquisition process, but no later than receipt of the proposal. For large dollar sole source acquisitions, the contracting officer is expected to consult with the pricing office (or Clearance and Program Support office) to determine which components of the **L-XXX Cost Proposal Adequacy and Structure** provision described in MP5315.4-1.d, should be included in the RFP.
- (c) Requesting a Pricing Assistance Waiver. Contracting officers may request a Pricing Assistance Waiver for acquisitions which meet or exceed the required thresholds identified in [DAFFARS 53153404-1-90\(a\)](#). Submit the waiver request to the CAA in accordance with the local submission process. If no local process exists, the waiver should be submitted to the CAA through the Pricing Chief (or Chief of the Clearance and Program Support office where there is no designated Pricing Chief). See the tailorable [Request for Pricing Assistance or Pricing Assistance Waiver](#) template.

MP5315.407-90 Contract Audit Follow-up (CAFU)

1. This Mandatory Procedure implements the following publications:
 - a. [Office of Management and Budget \(OMB\) Circular No. A-50](#), *Audit Follow-up*;
 - b. [Department of Defense Instruction \(DoDI\) 7650.03](#), *Follow-up on Government Accountability Office (GAO), Inspector General of the Department of Defense (IG DoD), and Internal Audit Reports*; and
 - c. [Department of Defense Instruction \(DoDI\) 7640.02](#), *Policy for Follow-up on Contract Audit Reports*.
 - d. [Department of Defense Instruction \(DoDI\) 7650.02](#), *Engaging with the Government Accountability Office (GAO) on GAO Audits*.

The publications above establish policy and responsibilities, reporting requirements, and follow-up procedures for contract audit reports issued by the Government Accountability Office (GAO), Inspector General of the Department of Defense (IG DoD), Defense Contract Audit Agency (DCAA), and the other internal audit agencies (such as the Air Force Audit Agency (AFAA)).

2. SAF/AQCP manages the Department of the Air Force (DAF) CAFU program
3. CAFU requirements for DCAA audit reports:
 - a. **SCO RESPONSIBILITIES:** SCOs:
 - (a) Monitors and ensures proper and timely resolution and disposition of contract audit reports within the focal point's organization.
 - (b) Maintains current records on all reportable audits, from receipt through disposition. For open reports, this includes written milestone plans comprised, as a minimum, of target resolution and disposition dates.
 - (c) Ensures that acquisition personnel within their organization are properly trained in the use of contract audit reports and the requirements of the CAFU program.
 - (d) Ensures that the organization's semi-annual CAFU status report is prepared in accordance with these procedures using the [web-based](#) CAFU tool and User's manual located on the [Defense Contract Management Agency \(DCMA\)](#) website. When the security classification of a contract or an audit precludes the use of the DCMA website, SCOs must seek approval from SAF/AQCP to use alternate means of reporting.
 - (e) Directs periodic evaluations of the organization's CAFU program to determine whether they are adequate and result in timely, appropriate resolution and disposition of audit reports.
 - b. **CONTRACTING OFFICER (CO) RESPONSIBILITIES:** The CO is responsible for reaching agreement with the contractor and has wide latitude and discretion in that regard. Accordingly, the procedure contained herein is structured in consonance with the independent, decision-making role of the CO and the financial advisory role of the contract auditor. COs should give full consideration to contract audit advice and must pursue timely and proper resolution and disposition of contract audit reports. Resolution of contract audit reports, other than pre-award reports, is required by OMB Circular A-50 to be accomplished within six months of report issuance. Disposition should take place as soon as possible after resolution. Per [DoDI 7640.02](#), Enclosure 3, Section 3.a, reportable audits should normally be disposed of within 12 months after issuance. The CO must document the disposition of all reported findings and recommendations in a signed and dated memorandum in accordance with [DoDI 7640.02](#), Enclosure 3, Section 3.b.
 - c. **TRACKING OF AUDIT REPORTS:** Contracting activities must track all contract audit reports. Tracking of non-reportable audits may be accomplished using records maintained in the contract file or in the CAFU on-line system. The designated focal point at each DAF contracting activity maintains contract audit follow-up information on a current

basis. The audit tracking information will normally be managed centrally at MAJCOM/FLDCOM/DRU headquarters (except for HQ AFMC, where this tracking will occur at the field activity). For auditor-determined final, indirect cost rate reports, a report is considered received for follow-up tracking purposes when it is forwarded by the auditor to the cognizant Administrative Contracting Officer (ACO) for resolution and disposition.

d. **REPORTING OF AUDIT REPORTS:** Reportable audits are identified in the Glossary of [DoDI 7640.02](#). The information to be reported on each audit is identified in Enclosure 4 of the same regulation. MAJCOM/FLDCOM/DRU semi-annual status reports will be automatically transmitted using the on-line CAFU system. The reports must cover the semi-annual periods ending 31 Mar and 30 Sep and must be completed in the on-line CAFU system no later than the end of the reporting period. If there are no audits, a negative report must be prepared and submitted to the SAF/AQC Workflow with a copy to the [cognizant HCA Workflow](#). All activities must make every possible effort to ensure the completeness and accuracy of their semi-annual reporting submission. Special attention should be focused on ensuring the most accurate data is submitted on any audit listed as unresolved and over 6 months old.

4. CAFU for GAO, IG DoD, and Internal Audit Reports: These procedures apply to audit reports which disclose contract pricing issues and are issued directly to the buying activity. COs shall provide:

- a. An initial response to the GAO/IG DoD/Internal Audit Agency within 60 days of receipt of the audit report; and
- b. A copy of the initial response and the disposition documents to the following:

MP5315.6 — UNSOLICITED PROPOSALS**MP5315.606-90 Receipt, Evaluation, and Disposition of Unsolicited Proposals**

(a) Unsolicited proposals (UP) are defined at [FAR 2.101](#) and described in [FAR 15.603\(c\)](#). MAJCOMs/FLDCOMs/DRUs/DAFRCO and subordinate contracting units are considered to be the cognizant points of contact for ensuring evaluation and disposition of a UP which is received at their respective base/activity. Organizations that are part of the Headquarters Air Force (HAF) that receive a submission that is considered a UP must forward it to [SAF/AQC](#) for assignment to the proper Department of the Air Force (DAF) MAJCOM/FLDCOM/DRU/DAFRCO contracting unit cognizant point of contact.

(b) Cognizant points of contact:

- (1) Coordinate and process UPs. Use a [cover sheet](#) to help protect the UP from unauthorized disclosure.
- (2) Notify the SCO for any UP that requires wider DAF consideration.
- (3) Maintain an accurate and complete record of the disposition of all UPs received.
- (4) Ensure the appropriate evaluation office is aware of the FAR guidance for evaluating UPs and the prohibitions and rules regarding copying, disclosing, and using restricted data contained in the proposal. Limit the distribution of UPs to the appropriate number of evaluators required to conduct a reasonable review. Maintain a record of the evaluators for each UP and the dates of their evaluation.
- (5) Ensure evaluators provide supporting rationale for their conclusions and recommendations. If the recommendation is to accept the UP, ensure evaluators indicate whether funds are currently available or programmed.
- (6) Notify the offeror concerning results of the evaluation within 30 working days from receipt of the UP. When the evaluation cannot be completed within 30 working days, send the offeror an interim reply to include an estimated completion date.
- (7) Advise the offeror that the favorable evaluation does not, in itself, contractually bind the government.

MP5325.103 Exceptions

(a) When a determination of nonavailability is required by [FAR 25.103\(b\)](#) and [DFARS 225.103\(b\)\(i\)](#), the contracting officer must prepare a [request for nonavailability determination](#) for approval. See [MP5301.601\(a\)\(i\)](#) for approval authority. Each request should identify the proposed acquisition by applicable purchase request or contract number and include:

- (1) A description of the articles intended to be acquired, manufacturer's name and address, model number, and specific information pertaining to special features, performance, versatility, etc.;
- (2) A statement of the efforts made to secure either the article required or suitable substitutes from domestic sources. List all domestic sources contacted or provide reasons why domestic sources were not contacted. Additionally, list reasons, if known, why domestic sources contacted could not or would not furnish required articles or suitable substitutes;
- (3) The name and address of the proposed source (if other than the manufacturer, state reason(s) why direct purchase or purchase through an overseas contract activity is not feasible);
- (4) The reason why purchase of foreign material or from a foreign source is necessary. Identify and explain the specific portion of the mission or requirement, which is of such magnitude as to override consideration to procure a domestic source end product;
- (5) A description of the end use of item to be purchased and a brief description of the special function to be accomplished, such as performance of special tests or research work;
- (6) The identity of the purchaser;
- (7) The citation of the applicable appropriation;
- (8) When the proposed purchaser of the articles intended to be acquired is not a Government agency but is a Department of the Air Force contractor, provide the contract number, the contract type, and indicate what the disposition of the articles will be at contract completion;
- (9) Whether or not payment is intended to be made before delivery is accomplished; and
- (10) The estimated foreign, domestic, and total cost of the proposed acquisition.

(b) In the case of inter-command acquisitions, compliance with the Buy American Statute and Balance of Payments evaluation procedures ([DFARS 225.5](#)) is the responsibility of the contracting command, except when the requiring command specifies a foreign end product, in which case, the determination is the responsibility of the requiring command.

(c) When overseas contracting support is needed, CONUS contracting activities should contact the following:

- (1) In Japan (excluding Okinawa):

(d) CONUS contracting activities requesting contracting support should provide, as a minimum, the information specified below to the appropriate overseas contracting activity. Contracting activities will treat all requests for contracting support on a priority basis. The requesting activity will provide:

- (1) A purchase request with description of the requirement including definitive specifications free of any defects that would otherwise preclude immediate contracting action;
- (2) Instructions for packaging, packing, and preservation, and special instructions dictated by the nature of the commodity to be purchased, if necessary;
- (3) An executed Buy American Statute Determination ([DFARS 225.103\(b\)\(i\)](#)) if the item is not exempted;

(4) A specification or purchase description suitable for obtaining full and open competition, or necessary information, certified as complete and accurate in accordance with [FAR 6.303](#) to support any recommendation for use of other than full and open competition;

(5) The obligation authority;

(6) The mailing address and telephone number of a single point of contact;

(7) Transportation, routing, or shipping instructions. If the foreign contractor will be required to ship requirements to multiple CONUS-based consignees, detailed shipping instructions concerning each consignee will be provided to the overseas procuring activity; and

(8) Any special distribution requirements for the contractual documents required beyond the normal distribution.

(e) Overseas contracting activities providing courtesy contracting support to CONUS-based requiring activities will, after determining all submitted documentation to be adequate, proceed with the acquisition using the certificate of conformance when appropriate. The AFO supporting the overseas contracting activity should make payments on all transactions. Follow these mandatory procedures when requesting approval to purchase restricted items under [DFARS 225.7002](#); for example, food, clothing, tents, tarpaulins, covers, cotton, and hand or measuring tools. The requirement to comply with these statutory and regulatory restrictions applies to procurements in excess of \$150,000. This MP provides assistance in determining the applicability of restrictions when drafting a DNAD. A DNAD must be tailored to your acquisition. In some cases, it may not be possible to obtain all of the data specified in the [DNAD](#) template; however, contracting officers should make every effort to do so. See [DFARS 225.7002](#) for the entire list.

MP5325.7002-2-2. DNAD Exception

a. Individual DNADs

When a contractor asserts that a domestic item identified at [DFARS 225.7002-1](#) cannot be acquired as and when needed in a satisfactory quality and sufficient quantity at U.S. market prices, a DNAD is required. The SecAF may approve the DNAD if compliant items, identified at [DFARS 225.7002-1](#), of satisfactory quality and sufficient quantity, and in the required form, cannot be procured at U.S. market prices as and when needed. This approval authority is not delegable. This exception should not be read to require that the compliant material/item must be totally unavailable (i.e., cannot be obtained at any cost). There is some cost limit that should be recognizable by a contracting officer, and that a reasonable person would agree, makes the material/item effectively “unavailable.”

b. Class DNADs

Contracting officers may continue to use OUSD (A&S)-approved class DNADs that cover food, clothing, fabrics, and hand or measuring tools for new contracts if the DNAD was signed by the Undersecretary of Defense (OUSD) (A&S) or by a Service Secretary. The OUSD (A&S) DNADs currently available for reciprocal use are posted on the [DCMA website](#). If a class DNAD is used, the contracting officer must prepare a Determination and Finding (D&F) approved by the SCO. This approval may not be further delegated. The contracting officer must obtain legal review to support the determination.

MP5325_7003_3_1 Domestic Non-Availability Determinations (DNAD) Under DFARS 225.7003

Follow these mandatory procedures (MP) when requesting approval to purchase restricted specialty metals under [DFARS 225.7003](#). The requirement to comply with these statutory and regulatory restrictions applies to procurements in excess of the simplified acquisition threshold. This MP provides guidance for drafting DNAD and Commercial Derivative Military Article (CDMA) Determination and Finding (D&F) documents. The DNAD or CDMA D&Fs should be tailored to the particular acquisition. In some cases, the contracting officer may not be able to obtain all of the data specified in the templates referenced below; however, the contracting officer should make every effort to do so.

MP5325_7003_3_2 Applicability of Commercial Derivative Military Articles (CDMA) to Specialty Metals

When a program office concludes that an item to be delivered under a prime contract is a commercial derivative military article (as defined at [DFARS 252.225-7009](#)) and the prime contractor provides the certification required at [DFARS 252.225-7010](#), the contracting officer must prepare a [CDMA D&F](#).

MP5325_7003_3_3 DNAD Exception

When a program office concludes that domestically melted or produced specialty metal cannot be procured (as described in [DFARS 225.7003-3\(b\)\(5\)](#)) to support the production of a particular end item or component, the contracting officer must prepare a [DNAD D&F](#) for specialty metals. The SecAF may approve a DNAD for an individual contract if a compliant specialty metal of satisfactory quality and sufficient quantity, and in the required form, cannot be procured as and when needed at a fair and reasonable price. This approval authority is not delegable. A Class DNAD requires the approval of the USD(A&S).

MP5332.4 - ADVANCE PAYMENTS FOR NON-COMMERCIAL ITEMS

MP5332.470 Advance Payment Pool

Advance payment requests must be processed as follows:

(1) The contracting officer must compile the advance payment request package in accordance with [FAR 32.4](#) and [DFARS 232.4](#) and submit it to the SCO for coordination. The SCO must submit the request through the [cognizant HCA Workflow](#). The cognizant HCA forwards the package to [SAF/FMF](#) for review and approval. DAFRCO and SpRCO will submit the request directly to the cognizant HCA, as appropriate.

(2) SAF/FMF will evaluate the request to determine if advance payments are justified. Assistance may be solicited from other sources such as contracting officers, auditors, disbursing officers, and, if necessary, field visits to the contractor or institution. For nonprofit educational or research institutions, SAF/FMF will determine if approved advance payments will be disbursed from an advance payment pool in accordance with [DFARS 232.470](#). When approved, SAF/FMF will forward the findings, determinations, and authorization for advance payments and/or the advance payment pool agreement to the responsible contracting officer. The contracting officer must ensure all applicable advance payment clauses are incorporated into each contract. The clause at [DFARS 252.232-7000](#), *Advance Payment Pool*, must be incorporated into each contract that is covered by the agreement.

(3) The Department of the Air Force accounting and finance office is responsible for the disbursing functions of the advance payment pool agreement.

MP5332.7 - CONTRACT FUNDING

Release of Solicitations in Advance of Funding Availability

Except for solicitations and contracts issued in accordance with [FAR 32.703-2\(a\)](#) and [clause 52.232-18](#), *Availability of Funds*, follow the procedures below when issuing solicitations in advance of available funds:

(a) The following statement must be included in any such solicitation: *“Notice to Offeror(s)/Supplier(s): Funds are not presently available for this effort. No award will be made under this solicitation until funds are available. The Government reserves the right to cancel this solicitation, either before or after the closing date. In the event the Government cancels this solicitation, the Government has no obligation to reimburse an offeror for any costs.”*

(b) When the resulting contract is to be funded by Procurement or Research, Development, Test, and Evaluation appropriations, the program/requirement must be included in the President’s budget as submitted to Congress, and the program manager must provide the contracting officer a written statement, indicating the program's inclusion. The statement must be coordinated with FM at the Center level (or equivalent) or as delegated to FM Organizational Senior Functional (OSF) that these investment funds will be used for the proposed acquisition and, although not presently available, a reasonable expectation exists that funding will be authorized and available upon enactment of the Authorization and Appropriations Acts.

(c) For solicitations for programs funded by the National Guard and Reserve Equipment Account when the Defense Appropriations Act is signed into law, for the Air National Guard Bureau, and/or Air Force Reserve Command, the Air National Guard or Reserve program manager must confirm that funds have been identified for the acquisition.

(d) Except for solicitations for operational contracting supply requirements less than \$1M and funded with annual appropriations, the MAJCOM/FLDCOM/DRU/DAFRCO Requiring Activity Functional Commander/Director, SCO, and Comptroller, or their appointed representatives, must jointly agree in writing to authorize the operational contracting office to issue solicitations when it is anticipated that the contract(s) will be funded, but funds are not yet available.

MP5333.1 - PROTESTS

MP5333.104 Protests to GAO

Revised: June 2023

(a) General

(1) The Department of the Air Force response to a GAO bid protest must comply with GAO's Bid Protest Regulations (4 CFR Part 21) and Federal Acquisition Regulation ([FAR](#) 33.104 as supplemented. For guidance on responding to unclassified protests, follow the [Air Force Commercial Litigation Field Support Center Protest Guide](#). For guidance on responding to classified protests, follow the [Administrative Guide for Processing Classified GAO Protests](#). Both documents are also available from AF.JAQC.AFLOA.Workflow.Org@us.af.mil.

(2) SAF/AQC serves as the notification point with the GAO for all protests.

Phone: (571) 256-7077, DSN 260-7077

E-mail: SAF.AQ.SAF-AQC.Workflow@us.af.mil

(3) The Air Force Commercial Litigation Field Support Center (AF/JACQ) represents the Air Force on all protests.

Phone: (240) 612-6661, DSN 612-6661

E-mail: AF.JAQC.AFLOA.Workflow.Org@us.af.mil

(4) The contracting officer must send any communication to the GAO through AF/JACQ with a courtesy copy to SAF/AQC and to the SCO focal point. Forward any inquiry received from an attorney representing a protestor or interested party to AF/JACQ.

(5) The *focal point* is designated by the SCO who receives communication from SAF/AQC or AF/JACQ concerning protests against Department of the Air Force solicitations or awards.

(6) The *supporting legal office* is the office that provides legal support to the contracting activity that received the protest. An attorney from the supporting legal office will draft the memorandum of law, and otherwise support the defense of the protest. AF/JAQC will provide protest guidance to the supporting legal office.

(b) Actions upon Receipt of Protest

(1) SAF/AQC will notify the contracting activity when a protest has been filed with the GAO. The contracting activity must immediately notify its supporting legal office/local attorney who provides contract law advice.

(2) The contracting officer must, within one business day of receiving the protest:

(i) Forward a copy of the protest to its supporting legal office/local attorney who provides contract law advice.

(ii) Provide a copy of the protest (or a redacted copy if the protest is designated as containing protected material) to the awardee, or if no award has been made, to all offerors who appear to have a reasonable prospect of receiving award. If no redacted copy of a protected protest was received, so advise AF/JACQ who will raise the issue with the protestor.

(iii) Advise AF/JACQ, SAF/AQC, and the [cognizant HCA Workflow](#) (if HCA is other than DAS(C) or ADAS(C)) as to all actions being taken regarding a stay of performance and any override of the stay to include:

(A) A discussion of whether a stay of performance or award is required IAW 31 U.S.C. 3553.

(B) If a stay is required IAW [FAR 33.104\(b\) or \(c\)](#), whether an override will be sought to lift the stay. (See paragraph (f).)

(C) If a stay is not required, discuss whether a suspension of performance or termination of the contract is in the best interest of the Department of the Air Force.

(iv) Send an email to AF/JACQ with the name, phone number, and e-mail address of the contracting officer and the local attorney.

(3) The contracting officer is responsible for generating the contracting officer's statement of facts. Within ten days after the Department of the Air Force receives the protest, provide the draft statement of facts and table of contents to its supporting legal office/local attorney who provides contract law advice.

(4) The supporting legal office/local attorney is responsible for preparing the initial memorandum of law, which will include a legal analysis of each ground of protest.

(5) The contracting officer must e-mail drafts of the initial memorandum of law, statement of facts, and table of contents (including a listing of any requested documents deemed irrelevant) to AF/JACQ (copying the focal point) as soon as practicable, but not later than 15 days after the Department of the Air Force is notified of the protest (or seven days from the date the express option is invoked by the GAO).

(c) Hearings

(i) If GAO calls for a hearing, the contracting activity must provide the requested witnesses and other support required by AF/JACQ. The contracting activity is responsible for funding witness travel and TDY costs.

(ii) At the request of the GAO through AF/JACQ or at the request of AF/JACQ, the contracting activity must obtain and fund court reporter services to transcribe the hearing. The cost of court reporter services is typically shared between the contracting activity, the protester, and the intervener.

(d) Resolving the Protest

(1) GAO Decision. If the protest goes to a written decision, the GAO will issue the decision within 100 days of the filing of the original protest. A protest decision involving protected information will be released to the parties under the protective order. A protected decision may be viewed within the government, but may not be released to, or discussed with, non-government personnel unless those personnel have been explicitly admitted to access of protected material under the protective order. Generally, those admitted to access under the protective order will be legal counsel for the protester and interveners. The GAO will issue a public redacted version of the decision at a later date.

(i) Denial or Dismissal. If the GAO denies or dismisses a protest, the protest is closed. The Air Force can proceed with all contractual actions upon notification of denial or dismissal.

(ii) Sustain. If the GAO sustains a protest, the GAO will also recommend corrective action and may recommend payment of reasonable protest costs, to include reasonable attorney fees. In some cases the GAO may also recommend payment of proposal preparation costs.

(A) Corrective action should be accomplished pursuant to paragraph (g) below. A decision not to comply with a GAO recommendation for corrective action may only be made by the cognizant HCA. Any recommendation not to comply with GAO's corrective action recommendation must be coordinated with the focal point and forwarded through the SCO to the [cognizant HCA Workflow](#) and AF/JACQ within 15 days of the date of the decision.

(B) Potential costs may include attorney fees and in-house costs related to pursuit of the protest. Costs must be paid by the base or procuring activity.

(2) Alternative Dispute Resolution (ADR). Resolution of the protest may be possible through use of ADR. Outcome prediction is a form of ADR commonly used in bid protests in which the GAO advises the parties of its likely position if the protest were resolved in a written decision. Department of the Air Force policy is to follow the outcome prediction recommendations. Other nonbinding ADR procedures (including but not limited to mediation) are available and should be considered for use in appropriate cases. When considering the use of ADR proceedings other than outcome prediction to resolve a bid protest, and before initiating an ADR proceeding, the contracting officer and AF/JACQ must notify [SAF/GCR](#) and [SAF/GCQ](#) and work with those offices to identify an ADR procedure appropriate to the individual case.

(3) Withdrawal. The protester may withdraw the protest, either because of corrective action taken by the Department of the Air Force or for other reasons. Once the protester gives notice of withdrawal to the GAO and the GAO closes its file, the contracting activity can resume all contractual actions.

(e) Corrective Action

(1) Corrective action may be taken by the Department of the Air Force at any time during the protest process or upon the recommendation of the GAO when a protest is sustained. Within five days of a decision to take corrective action (either voluntary or as recommended by the GAO), the contracting officer must provide a corrective action plan through their SCO to the [cognizant HCA Workflow](#) and AF/JACQ. The contracting officer must notify the cognizant HCA and AF/JACQ if there are any significant changes to the corrective action plan, if the corrective action will not be completed within 60 days, and when the corrective action is complete. The focal point should be copied on these messages.

(f) Mandatory Stay of Award or Performance

(1) Statutory Requirements (31 USC 3551-3556)

(i) [FAR 33.104\(c\)\(1\)](#), in conjunction with [Class Deviation 2018-O0011, Enhanced Postaward Debriefing Rights](#), state that if the protest is received within the following deadlines, the agency has to withhold award or, if award has been made, immediately issue a stop work order to the awardee:

Ten days after date of contract award;

If a debriefing is required, five days after the debriefing date offered to the protester under a timely debriefing request and no additional questions related to the debriefing are submitted; or

Five days after the government delivers its written response to additional questions submitted by the unsuccessful offeror.

(ii) The Department of the Air Force can override a stay in appropriate circumstances when it can show a requisite level of harm resulting from a delay of contract award or performance. A challenge to the override decision is brought before the Court of Federal Claims vice GAO.

(2) Overriding Stay of Award (protest filed before award).

(i) See [DAFFARS 5333.104\(b\)\(1\)](#) for processing instructions.

(ii) A stay of award may only be overridden by “urgent and compelling circumstances that significantly affect interests of the United States.” These circumstances may include delays, work stoppages, or performance degradations that severely impact mission-critical operations.

(iii) All requests must include facts that establish the urgent and compelling circumstances that significantly affect the interests of the United States. The request must explain, if there is an incumbent, why the incumbent’s contract cannot be extended. The request must explain what other options are available and why those options, if any, are not viable.

(3) Overriding Stay of Performance (protest filed after award).

See 5333.104(c)(2) for processing instructions.

(ii) A stay of performance may only be overridden by urgent and compelling circumstances that significantly affect interests of the United States, or where performance of the contract is in the best interests of the United States.

(iii) HCA Override. See [Override D&F Template](#). NOTE: The template contains guidance on the last few pages of the document.

(A) The request to the [cognizant HCA](#) for an override must include the findings required by FAR 33.104(b) or (c).

(B) The cognizant HCA will make a decision with respect to authorizing award or continued performance within ten days of the protest notification by SAF/AQC. If circumstances change after suspension of contract performance, the contracting officer may initiate a request to continue performance.

(C) The cognizant HCA’s decision to override is not effective until a written finding is made and the agency files with GAO either a copy of any issued determination and finding, or a statement by the individual who approved the determination and finding that explains the statutory basis for the override, in accordance with [FAR 33.104\(b\)\(2\) or \(c\)\(3\)](#). Notification should include the protester’s name and the B-number assigned to the protest. Copies of the signed notice and the finding must be sent to the [cognizant HCA](#). AF/JACQ will file the notice at GAO and provide copies to the protester and interested parties, as required by [FAR 33.104\(d\)](#).

(iv) The cognizant HCA may request a briefing on technical and contractual aspects of the solicitation when an override is requested.

MP5342.9 - BANKRUPTCY

MP5342.902 Bankruptcy Procedures

Revised: June 2023

(a) When an office (typically contracting, financial management, or legal) first learns of bankruptcy proceedings that may involve or affect the Department of the Air Force, that office must as a minimum provide notice to its supporting contracting, financial management, and legal offices. Once the contracting office and legal office are notified, they must work as a team to carry out the following responsibilities:

(1) The contracting office must furnish notice of the bankruptcy to any affected buying activities and to the Defense Finance and Accounting Service Office of General Counsel (DFAS-HGB) at the following address:

Office of General Counsel
DFAS-HGB
Defense Finance and Accounting Service
8899 E. 56th Street
Indianapolis, IN 46249-0160

The legal office must furnish notice to the Bankruptcy Branch of the Commercial Litigation Division of the Air Force Legal Services Agency (AFLOA/JAQ) at the following address:

AFLOA/JAQ
1500 West Perimeter Road, Suite 4100
Joint Base Andrews, MD 20762

Provide notice irrespective of whether any contracts have been closed, terminated, or still have performance outstanding. Make notifications via the most expeditious method, but no later than three days after learning of the bankruptcy. Notify promptly, whether or not all required information is initially available, and even in cases where it appears the notifying office, itself, received late notice. Ensure the notification includes:

- (A) The name of the debtor/contractor, including all known affiliates who have filed for bankruptcy;
- (B) The court in which the bankruptcy petition was filed;
- (C) The date the bankruptcy petition was filed; and
- (D) The case number assigned by the bankruptcy court.

(2) Make an assessment of each of the debtor's contracts and determine:

(A) If the Department of the Air Force has a claim or potential claim against the debtor/contractor (e.g., based on unliquidated progress payments, nonconforming goods, estimated excess procurement costs, etc.), whether the contract is ongoing, closed, terminated, or otherwise in litigation.

(B) The current status and performance experience of each ongoing contract. The contractor may request the court's permission to assume, sell, reject, or continue performing ongoing contracts. The contracting officer will need to coordinate with [AF/JACQ](#) to determine how best to pursue the most favorable course.

(C) If the debtor/contractor is in possession of any Government furnished equipment, Government furnished property, or work in progress for which title has passed to the Government.

(3) The contracting officer and legal office must promptly advise [AF/JACQ](#) regarding all Government property in the possession of, or under the control of, the debtor/contractor. Failure to address such property in a timely manner may result in a loss to the Government if the property is lost, sold, or otherwise improperly disposed of by the debtor/contractor or the court appointed trustee. The contracting officer must suspend payments to the contractor/debtor while making the assessment of each contract. (The contracting officer must contact the appropriate DFAS payment office if necessary to halt a previous or recurring payment request.)

(A) On those contracts where the Department of the Air Force has no claim or potential claim against the contractor, the contracting officer may resume payments to the contractor only for amounts due post-petition. The "petition date" is the date the bankruptcy was filed with the court. Post-petition payments are only for debts based on work performed, or goods delivered, after the debtor/contractor filed for bankruptcy. If an invoice does not clearly indicate whether it is based upon pre-petition or post-petition performance, the contracting officer should contact the debtor's/contractor's billing office—prior to making any payments—to request invoicing that clearly identifies whether the requested payment is for pre-petition or post-petition work. It is the debtor's/contractor's responsibility to bifurcate invoices into pre-petition and post-petition billing where a particular job spans the bankruptcy filing date. The supporting attorney will need to assist the contracting officer in obtaining appropriate invoices if the billing is being conducted by the trustee or the debtor's/contractor's bankruptcy counsel. NOTE: contracting officers must work closely with DFAS to ensure post-petition payments

reference only those post-petition invoices approved and forwarded by the contracting officer for payment. Be aware that DFAS' normal business practice may be to pay the oldest invoice on file first. Inadvertent payment of pre-petition invoices, versus the intended post-petition invoices, may result in the Government's loss of security and, ultimately, reduce the potential for recovery of Government claims.

(B) The contracting officer should continue to withhold amounts due for pre-petition performance or deliveries while AFLOA/JAQ works with DFAS and the Department of Justice to determine if there are other Government claims which should be offset against those pre-petition amounts owed. Pre-petition debts are those amounts due for work performed or goods delivered before the bankruptcy petition was filed with the court. The contracting officer must not authorize pre-petition payments without prior coordination with and approval from [AF/JACQ](#).

(C) These payment provisions augment, rather than supersede, otherwise applicable requirements regarding certification of payment requests.

(4) The contracting office and legal office must furnish information as follows:

(A) Any information required above, but not available at the time of initial reporting, must be provided to the respective office(s). Information reporting and coordination is a continuing requirement for both the contracting and legal offices.

(B) Not later than 15 days after receiving notice of a bankruptcy filing, the contracting officer must submit a report to DFAS-HGB and [AF/JACQ](#) detailing:

(i) Each contract (by debtor's/contractor's or affiliate's name) and the nature thereof;

(ii) All potential Government claims against the debtor/contractor (by contract), including the basis for each claim and the method used to determine the amount due (even when the amount is an estimate);

(iii) The status of each contract, including the percentage completed, the performance experience to date (including post-petition), and actions taken regarding the withholding or resumption of payments; and

(iv) Any available information regarding the debtor's/contractor's intent regarding the future of each contract and the contracting officers' thoughts regarding the same.

(C) All correspondence relative to the bankruptcy received from any source must be copied and forwarded to [AF/JACQ](#) within one business day of receipt.

(D) Any claims or requests for equitable adjustment from the debtor/contractor or trustee must be copied and forwarded to [AF/JACQ](#).

(b) The contracting officer and supporting attorney must consult [AF/JACQ](#) prior to taking any of the following actions regarding the debtor/contractor:

(1) Issuing a show cause letter or cure notice;

(2) Terminating a contract, either for default or the convenience of the Government, or canceling a contract or an order under a contract;

(3) Setting off or recouping debts, or otherwise attempting to collect or recover amounts owed by the debtor/contractor;

(4) Demanding or otherwise seeking to recover Government property;

(5) Initiating procurement of the goods or services provided under a contract;

(6) Issuing a new contract to or exercising an option to extend a contract with the debtor/contractor; or

(7) Beginning or continuing any judicial or administrative action or proceeding against the debtor/contractor that could have been brought before the bankruptcy petition was filed.

Because STCCs require special notification to Congress and entail a long approval process over which the Department of the Air Force has little control, the contracting officer should allow Headquarters Air Force Staff sufficient time to process requests to use [DFARS 252.249-7000](#), Special Termination Costs (i.e., not less than 90 days prior to contract award). The request must include the following:

(i) A detailed breakdown of applicable cost categories in the clause at [DFARS 252.249-7000, \(a\)\(1\) through \(5\)](#), which includes the reasons for the anticipated incurrence of the costs in each category;

(ii) Information on the financial and program need for the clause including an assessment of the contractor's financial position and the impact of a failure to receive authority to use the clause; and

(iii) Clear evidence that only costs that arise directly from a termination would be compensated under the clause. Costs that would be incurred by the Government, regardless of whether a termination occurs, must not be covered by a STCC.
